Square Persimmon and Other Stories Takashi Atoda, 2012-01-16 The Square Persimmon and Other Stories is an introduction to Takashi Atoda—one of Japan's most popular and versatile writers of fiction. Takashi Atocia is a master storyteller. Like the bar madam in *The Glow of Lipstick*, he is capable of weaving a tale that captures the reader's attention from beginning to end. His plots deal with ordinary people, yet the emotional impact of each story is unusually strong. His down-to-earth characters inhabit a world that may at first appear familiar, but Atoda can so manipulate a scene that suddenly the reader is wondering whether it is reality or illusion that he is observing. Many

stories feature bizarre endings. In these eleven stories, Atoda examines universal themes-first love, lost love, change, fate-through unmistakably Japanese eyes. The dreamlike quality of some stories invites the reader to draw his own conclusions in the denouement. Yet, in each one, Atoda brings to bear his precise style and his own unique vision, by turns mysterious, romantic, darkly humorous, and even bizarre.

Cedric Price - The Square Book Cedric Price, 2003-09-19

Cedric Price Architects was established in 1960 and this book features works from its early years - iconic projects such as The Fun Palace and Potteries Thinkbelt, built projects such as London Zoo's Aviary, and many less well-known schemes and writings. Additional essays are contributed by eminent architectural historians Reyner Banham, Royston Landau and Robin Middleton and colleague/critics such as David Allford, Peter Cook and Warren Chalk. The Square Book is a faithful reprinting of an original book entitled Cedric Price: Works II, published in 1984 by the Architectural Association (AA). Ron Herron and AA Chairman Alvin Boyarsky had invited Price to make the book to coincide with an exhibition of the work of his office at the AA in June the same year. Price complied as a favour to his dear friends although he has always been resistant to the crystallisation of his work in book form, being more inclined towards the immediate and ephemeral nature of magazines and journals. Price states that there is a point reached where if too much time is required to produce something its operational integrity is marred. This remark is central to Price's thesis that Time is the fourth dimension in architecture and that Change is its champion. It is timely that such a book should be reprinted. Its purpose is not to provide material upon which to reflect but to serve as fuel to students and practitioners of architecture - a profession

that continues to institutionally resist change at the beginning of a new millennium. We are reminded, as Peter Cook writes, that Cedric is our reference. Our conscience.

The Hinged Square & Other Puzzles Ivan

Moscovich,2004 A colorful square, dissected into four parts, with hinges marked in black. If you leave the blue piece fixed and swing the others around their hinges, a new shape will emerge. Can you guess just by looking what it will be? This is just one of the tricky geometrical gems that will make a puzzler's mind work overtime. Try drawing a set of variously shaped polygons using only a compass and a ruler (no measuring allowed!), figuring out which of two sculptures is bigger (logic alone won't give you the answer), and lots more.

The Square Circle Denis MacKail,2013-10 This is a new release of the original 1931 edition.

60 Robert Khayat,2021-06-09 In 1960, 22-year-old Robert Khayat experienced a year in which his own life, the nation, and the state of Mississippi were forever changed. The same spring that four college students in North Carolina refused to move from a segregated lunch counter, Khayat's SEC champion Ole Miss baseball team was denied the right to play in the NCAA tournament because they might encounter a Black opponent. At the same time that young John F. Kennedy became a household name, Khayat's dark-

skinned father was making an unlikely ascent to become one of the most politically powerful men in Mississippi. And two high-profile segregationists - Redskins owner George Preston Marshall and Mississippi Governor Ross Barnett - would impact Khayat's life in ways he could never have imagined. The events of 1960 set the stage for a revolution . . . and Robert Khayat was living in the midst of it all. 60: A Year of Sports, Race & Politics is the story of the year that changed everything for a nation, its culture, and a promising young man from Mississippi.

Harvard Square Catherine J. Turco,2023-02-28 “Harvard

Square isn't what it used to be." Spend any time there, and you're bound to hear that lament. Yet people have been saying the very same thing for well over a century. So what does it really mean that Harvard Square—or any other beloved Main Street or downtown—"isn't what it used to be"? Catherine J. Turco, an economic sociologist and longtime denizen of Harvard Square, set out to answer this question after she started to wonder about her own complicated feelings concerning the changing Square. Diving into Harvard Square's past and present, Turco explores why we love our local marketplaces and why we so often struggle with changes in them. Along the way, she introduces readers to a compelling set of characters, including the early twentieth-century businessmen who bonded over scotch and cigars to found the Harvard Square Business Association; a feisty, frugal landlady who became one of the Square's most powerful property owners in the mid-1900s; a neighborhood group calling itself the Harvard Square Defense Fund that fought real estate developers throughout the 1980s and '90s; and a local businesswoman who, in recent years, strove to keep her shop afloat amid personal tragedy, the rise of Amazon, and a globalizing property market that sent her rent soaring. Harvard Square tells the crazy, complicated love story of one quirky little marketplace and in the process, reveals the hidden love story Americans everywhere have long had with their own Main Streets and downtowns. Offering a new and powerful lens that exposes the stability and instability, the security and insecurity, markets provide, Turco transforms how we think about our cherished local marketplaces and markets in general. We come to see that our relationship with the markets in our lives is, and has always been, about our relationship with ourselves and one another, how we come together and how we come apart.

Washington Square Henry James, 2010-11-11 'She will do as I have bidden her.' Catherine Sloper is heiress to a fortune and the social eminence associated with Washington Square. She attracts the attention of a good-looking but penniless young man, Morris Townsend. His suit is encouraged by Catherine's romantically-minded aunt, Mrs Penniman, but her father, a clever physician, is convinced that his motives are merely mercenary. He will not consent to the marriage, regardless of the cost to his daughter. Out of this classic confrontation Henry James fashioned one of his most deftly searching shorter fictions. First published in 1880 but set some forty years earlier in a pre-Civil War New York, the novel reflects ironically on the restricted world in which its heroine is marooned, seating herself at its close 'for life, as it were'. In his introduction Adrian Poole reflects on the book's gestation and influences, the significance of place, and the insight with which the four principal players are drawn. The edition includes an account of the real-life tale that sparked James's imaginative genius. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

Lafayette Square Lonnie J. Hovey, 2014-08-18 Lafayette Square's rich history dates back to the founding of the District of Columbia when Pierre L'Enfant planned it as part of the grounds for the president's house. The square was one of the first open spaces within the city to be designed as a public park. Across Pennsylvania Avenue from the White House, the park's neighborhood became home to presidents, vice presidents, cabinet members, diplomats, inventors, journalists, heroes, authors, scientists, law breakers, and scoundrels. Today, the square and its sculptures are surrounded by government offices, but

symbolically, it is the White House's front yard, making it an attractive destination. Using historic photographs, Lafayette Square captures the square's social, political, and architectural history, highlighting important past events.

Square 1 Demetris Prewitt, 2023-03-10 Countless academic studies, Christian leaders, and personal experience show a startling and disturbing fact about the church: most Christians do not understand their faith. Square 1: Bible Study for Christian Foundations explains clearly what the Bible teaches, why Christians believe it, and how to walk with Jesus. The book brings foundational biblical doctrine to life through plain language, thought-provoking images, and challenging application questions for group discussion. The purpose of the book is to provide a biblical foundation for the Christian faith, worldview, and lifestyle. So, what makes it different? • Everything starts with God's nature, character, and attributes • Its pages are visually stimulating with color imagery • The book does not begin assuming the reader has high biblical literacy or holds Christian worldview and is therefore, laced with Christian apologetics • Square 1 treats 21st century topics like identity, human rights, and sexuality as foundational for believers to understand their faith • The book tackles end-times and the new creation with unbelievable clarity Square 1 is a masterful blend of theological, philosophical, pastoral, apologetical, and biblical material. At the end of this study, the reader should be able to walk out the Christian life in the power of the Holy Spirit, in expectation of Christ's return, to the praise and glory of the Father. They will also be capable of understanding, explaining, and defending the central claims of Christianity, which is the good news of Jesus Christ. Square 1 is systematic theology for anybody.
