But today I would like to tell you the real story of HOW I was actually able to accomplish such a feat. My adventure all starts with a simple math question. I know what you're thinking - how does math have anything to do with my epic adventure? Let me confess to you my secret to confronting and out-smarting a giant; the secret is MATH. I used math to initially buy the beans, I used math to help sort through the giant's treasure of all sorts of geometric shapes to help me find the amulet, and I used math for just about every major obstacle on my journey. Join me on my epic math adventure where you can help me avoid being boiled for breakfast or figure out if I will have enough time to make it down the beanstalk before the giant catches me.
