Radio Drama Tim Crook,2002-01-04 Radio Drama brings together the practical skills needed for radio drams, such as directing, writing and sound design, with media history and communication theory. Challenging the belief that sound drama is a 'blind medium', Radio Drama shows how experimentation in radio narrative has blurred the dividing line between fiction and reality in modern media. Using extracts from scripts and analysing radio broadcasts from America, Britain, Canada and Australia, the book explores the practicalities of producing drama for radio. Tim Crook illustrates how far radio drama has developed since the first 'audiophonic production' and evaluates the future of radio drama in the age of live phone-ins and immedate access to programmes on the Internet.

The Bloomsbury Handbook of Radio Kathryn McDonald,Hugh Chignell,2023-01-26 The Bloomsbury Handbook of Radio presents exciting new research on radio and audio, including broadcasting and podcasting. Since the birth of radio studies as a distinct subject in the 1990s, it has matured into a second wave of inquiry and scholarship. As broadcast radio has partly given way to podcasting and as community initiatives have pioneered more diverse and innovative approaches so scholars have embarked on new areas of inquiry. Divided into seven sections, the Handbook covers: - Communities - Entertainment - Democracy - Emotions - Listening - Studying Radio - Futures The Bloomsbury Handbook of Radio is designed to offer academics, researchers and practitioners an international, comprehensive collection of original essays written by a combination of well-established experts, new scholars and industry practitioners. Each section begins with an introduction by Hugh Chignell and Kathryn McDonald, putting into context each contribution, mapping the discipline and capturing new directions of radio research, while providing an invaluable resource for radio studies.

Vulnerability in Scandinavian Art and Culture Adriana Margareta Dancus,Mats Hyvönen,Maria Karlsson,2020-03-30 In this open access book, seventeen scholars discuss how contemporary Scandinavian art and media have become important arenas to articulate and stage various forms of vulnerability in the Scandinavian welfare states. How do discourses of privilege and vulnerability coexist and interact in Scandinavia? How do the Scandinavian countries respond to vulnerability given increased migration? How is vulnerability distributed in terms of margin and centre, normality and deviance? And how can vulnerability be used to move audiences towards each other and accomplish change? We address these questions in an interdisciplinary study that brings examples from celebrated and provocative fiction and documentary films, TV-series, reality TV, art installations, design, literature, graphic art, radio podcasts and campaigns on social media.

Tuning in to the neo-avant-garde Inge Arteel,Lars Bernaerts,Siebe Bluijs,Pim Verhulst,2021-07-06 Bringing together an international and diverse group of scholars, Tuning in to the neo-avant-garde offers the first in-depth study of the radio medium's significance as a site of artistic experimentation for the literary neo-avant-garde in the postwar period. Covering radio works from the 1950s until the 2010s, the collection charts how artists across the UK, Europe and North America continued as well as reacted to the legacies of the historical avant-garde and modernism, operating within different national broadcasting contexts, by placing radio in an intermedial dialogue with prose, poetry, theatre, music and film. In doing so, the volume explores a wide variety of acoustic genres – radio play, feature, electroacoustic music, radiophonic poem, radio opera – to show that the medium deserves to occupy a more central place than it currently does in studies of literature, (inter)media(lity) and the (neo-)avant-garde.

Recognising European Modernities Allan Pred,2014-02-25 For over a century, Europe has been characterised by a plurality of capitalist modernities. At any moment, each country possesses its own distinctly modern qualities which are partly shaped through interrelationships with other countries. Each European commodity society has experienced successive, but different overlapping, periods of industrial modernity (large scale factories and urban growth), high modernity (social modernization promoted by social engineering) and hypermodernity (the acceleration of modernity, yielding new circumstances and sensibilities). Interrogating contemporary hypermodern Europe thus requires an exploration of industrial and high modern Europe. Recognising European Modernities explores a century of civilisation through a critical examination of the extreme case of Sweden. Using montage - relayering multiple pasts and on-going present - the book challenges the contemporary obsession with postmodernity, demanding a deeper, more connective understanding of the pleasures and dangers of the European present. The author visits three spectacular spaces: the Stockholm Exhibition of 1897, the Stockholm Exhibition of 1930 and the Globe, a contemporary multi-purpose arena. Analysis of these pivotal spaces reveals the on-going process of modernization as new forms of consumption are repeatedly entangled in changing discourses of power to be reworked and translated into cultural politics.

Tennessee Williams in Sweden and France, 1945-1965 Dirk Gindt,2019-01-24 The immediate post-war period marks a pivotal moment in the internationalization of American theatre when Tennessee Williams' plays became some of Broadway's most critically acclaimed and financially lucrative exports. Dirk Gindt offers a detailed study of the production and reception of Williams' work on Swedish and French stages at the height of his popularity between 1945 and 1965. Analysing the national openings of seminal plays, including The Glass Menagerie, A Streetcar Named Desire, Cat on a Hot Tin Roof, Orpheus Descending and Suddenly Last Summer, Gindt provides rich and nuanced insights into Williams' transnational impact. In the process, he charts a network of fascinating and influential directors, actors, designers, producers and critics, all of whom left distinctive marks on mid-twentieth-century European theatre and culture. Gindt further demonstrates how Williams' work foregrounded cultural apprehensions, racial fantasies and sexual anxieties, which resulted in heated debates in the critical and popular media.

Reconsidering National Plays in Europe Suze van der Poll,Rob van der Zalm,2018-05-04 This volume frames the concept of a national play. By analysing a number of European case studies, it

addresses the following question: Which play could be regarded as a country's national play, and how does it represent its national identity? The chapters provide an in-depth look at plays in eight different countries: Germany (Die Räuber, Friedrich Schiller), Switzerland (Wilhelm Tell, Friedrich Schiller), Hungary (Bánk Bán, József Katona), Sweden (Gustav Vasa, August Strindberg), Norway (Peer Gynt, Henrik Ibsen), the Netherlands (The Good Hope, Herman Heijermans), France (Tartuffe, Molière), and Ireland. This collection is especially relevant at a time of socio-political flux, when national identity and the future of the nation state is being reconsidered.

Ingmar Bergman's Face to Face Michael Tapper,2017-10-03 The 1976 premiere of Face to Face came at the height of director-screenwriter Ingmar Bergman's career. Prestigious awards and critical acclaim had made him into a leading name in European art cinema, yet today Face to Face is a largely overlooked and dismissed work. This book tells the story of its rise and fall. It presents a new portrait of Bergman as a political artist exploring a new medium with huge public impact: television. Inspired by Henrik Ibsen, feminism, and alternative psychotherapy, he made a series of portraits of the modern bourgeois family focusing on the plight of women; Face to Face followed in the tracks of The Lie (1970) and Scenes from a Marriage (1973). By his workbooks, engagement planners, and other archival material, we can trace his investigation into the heart of repressive family structures to eventually glimpse a way out. This volume culminates in an extensive study of the two-year process from the first outlines of the screenplay to the reception and aftermath of Face to Face. It thus offers a unique insight into Bergman's world, his ideas and artistry during a turbulent time in cinema history.

Media Policy and Music Activity Krister Malm,Roger Wallis,2003-09-02 How do people make music - and how does this activity relate to the policies of governments and the music industry? What is the relationship between live music and music we hear on the radio, or in music videos? How has the digital revolution affected music-making in industrialised and in developing nations? In Media Policy and Music Activity, Krister Malm and Roger Wallis look in depth at the relationships between policies governing the output of the music media and music activity in society. A practical base in case study material is combined with a broad theoretical framework for understanding the music media.
