Each chapter is further embellished with snappy visual material to allow for rabbit-hole tangents and digressions—including charts, illustrations, sidebars, and footnotes. Follow along as the two dig into the underlying stories of everything from the origin of Murphy beds, to the history of facial hair, to the psychology of being lost. Have you ever wondered about the world around you, and wished to see the magic in everyday things? Come get curious with Stuff You Should Know. With Josh and Chuck as your guide, there's something interesting about everything (...except maybe jackhammers).

*Norms and Nobility* David V. Hicks, 2024-08-06 A reissue of a classic text, *Norms and Nobility* is a provocative reappraisal of classical education that offers a workable program for contemporary school reform. David Hicks contends that the classical tradition promotes a spirit of inquiry that is concerned with the development of style and conscience, which makes it an effective and meaningful form of education. Dismissing notions that classical education is elitist and irrelevant, Hicks argues that the classical tradition can meet the needs of our increasingly technological society as well as

serve as a feasible model for mass education.

**This Is Ear Hustle** Nigel Poor, Earlonne Woods, 2022-08-30 A “profound, sometimes hilarious, often heartbreaking” (The New York Times) view of prison life, as told by currently and formerly incarcerated people, from the co-creators and co-hosts of the Peabody- and Pulitzer-nominated podcast Ear Hustle “A must-read for fans of the legendary podcast and all those who seek to understand crime, punishment, and mass incarceration in America.”—Piper Kerman, author of *Orange Is the New Black* When Nigel Poor and Earlonne Woods met, Nigel was a photography professor volunteering with the Prison University Project and Earlonne was serving thirty-one years to life at California’s San Quentin State Prison. Initially drawn to each other by their shared interest in storytelling, neither had podcast production experience when they decided to enter Radiotopia’s contest for new shows . . . and won. Using the prize for seed money, Nigel and Earlonne launched Ear Hustle, named after the prison term for “eavesdropping.” It was the first podcast created and produced entirely within prison and would go on to be heard millions of times worldwide, garner Peabody and Pulitzer award nominations, and help earn Earlonne his freedom when his sentence was commuted in 2018. In *This Is Ear Hustle*, Nigel and Earlonne share their own stories of how they came to San Quentin, how they created their phenomenally popular podcast amid extreme limitations, and what has kept them collaborating season after season. They present new stories, all with the same insight, balance, and rapport that distinguish the podcast. In an era when more than two million people are incarcerated across the United States—a number that grows by 600,000 annually—Nigel and Earlonne explore the full and often surprising realities of prison life. With characteristic candor and humor, their moving portrayals include unexpected moments of self-discovery, unlikely alliances, inspirational resilience, and ingenious work-arounds. One personal narrative at a time, framed by Nigel’s and Earlonne’s distinct perspectives, *This Is Ear Hustle* reveals the complexity of life for incarcerated and formerly incarcerated people while illuminating the shared experiences of humanity that unite us all.

*The XX Brain* Lisa Mosconi PhD, 2022-11-08 The instant New York Times bestseller! In *The XX Brain*, Lisa meticulously guides us in the ways we can both nourish and protect ourselves, body and mind, to ensure our brains remain resilient throughout our lives. --from the foreword by Maria Shriver The first book to address cognitive enhancement and Alzheimer’s prevention specifically in women--and to frame brain health as an essential component of Women’s Health. In this revolutionary book, Dr. Lisa Mosconi, director of the Women’s Brain Initiative at Weill Cornell Medical College, provides women with the first plan to address the unique risks of the female brain. Until now, medical research has focused on bikini medicine, assuming that women are essentially men with breasts and tubes. Yet women are far more likely than men to suffer from anxiety, depression, migraines, brain injuries, and strokes. They are also twice as likely to end their lives suffering from Alzheimer’s disease, even when their longer lifespans are taken into account. But in the past, the female brain has received astonishingly little attention and was rarely studied by medical researchers-- resulting in a wealth of misinformation about women’s health. *The XX Brain* confronts this crisis by revealing how the two powerful X chromosomes that distinguish women from men impact the brain first and foremost and by focusing on a key brain-protective hormone: estrogen. Taking on all aspects of women’s health, including brain fog, memory lapses, depression, stress, insomnia, hormonal imbalances, and the increased risk of dementia, Dr. Mosconi introduces cutting-edge, evidence-based approaches to protecting the female brain, including a specific diet proven to work for women, strategies to reduce stress, and useful tips for restorative sleep. She also examines the controversy about soy and hormonal replacement therapy, takes on the perils of environmental toxins, and examines the role of our microbiome. Perhaps best of all, she makes clear that it is never too late to take care of yourself. *The XX Brain* is a rallying cry for women to have full access to information regarding what is going on in their brains and bodies as well as a roadmap for the path to optimal, lifelong brain health.

Clearer, Closer, Better Emily Balcetis, 2021-02-23 Successful people literally see the world differently. Now an award-winning scientist explains how anyone can leverage this “perception gap”

to their advantage. “Get ready for this book to change how you see everything you see.—Adam Grant, New York Times bestselling author of *Originals* and *Give and Take* When it comes to setting and meeting goals, we may see—quite literally—our plans, our progress, and our potential in the wrong ways. We perceive ourselves as being closer to or further from the end than we may actually be depending on our frame of reference. We handicap ourselves by looking too often at the big picture and at other times too long at the fine detail. But as award-winning social psychologist Emily Balcetis explains, there is great power in these misperceptions. We can learn to leverage perceptual illusions if we know when and how to use them to our advantage. Drawing on her own rigorous research and cutting-edge discoveries in vision science, cognitive research, and motivational psychology, Balcetis offers unique accounts of the perceptual habits, routines, and practices that successful people use to set and meet their ambitions. Through case studies of entrepreneurs, athletes, artists, and celebrities—as well as her own colorful experience of trying to set and reach a goal—she brings to life four powerful yet largely untapped visual tactics that can be applied according to the situation. Narrow your focus: Closing the aperture of your attention helps you exercise effectively, save money, and find more time in your day. Widen the bracket: Seeing the forest instead of the trees reduces temptations and helps you recognize when a change of course is in order. Materialize your plan and your progress: Creating checklists and objective assessments inspires better planning and adjusts your gauge of what’s really left to be done. Control your frame of reference: Knowing where to direct attention improves your ability to read others’ emotions, negotiate better deals, foster stronger relationships, and overcome a fear of public speaking. A mind-blowing and original tour of perception, *Clearer, Closer, Better* will help you see the possibilities in what you can’t see now. Inspiring, motivating, and always entertaining, it demonstrates that if we take advantage of our visual experiences, they can lead us to live happier, healthier, and more productive lives every day.

**Seen** Lucie V. Ande, 2021-12-31 Cali may be out of the fire, but that doesn't mean the heat is off. Finn and Knox have been summoned to answer for their actions. The paparazzi and media are circling Kingston like vultures. People have questions, and they want answers. Tanner took pity on Cali, bringing Braxton, Bree, Knox, Finn, and Hoyt along for the ride; a decision they may regret. Fallout from the fire isn't Cali's only problem. Already victim to a prank war in her own dorm, Cali finds herself in the middle of the first year crew's saga. Can Cali remain Switzerland as the pranks continue to escalate, or will she be caught in the cross-hairs once again? Gruesome scalpel work. New societies. Minor kidnappings. Death by glare. Just a typical day at Wiltshire. Feeling guilty, homeless, and possessing only the clothes on her back, Cali tries to juggle the demanding Wiltshire academics, investigators who don't think Cali is as innocent as she seems, a game with increasing stakes that Cali doesn't know the rules to, and trying to hold on to the friends she's made. Cali wanted to be seen, but this is not what she had in mind.

**Stuff They Don't Want You to Know** Ben Bowlin, Matt Frederick, Noel Brown, 2022-10-11 “Interesting...Bowlin's calmly rational approach to the subject of conspiracy theories shows the importance of logic and evidence.”—Booklist A page-turning book to give to someone who believes in pizza pedophilia or that the Illuminati rule the world.—Kirkus Reviews The co-hosts of the hit podcast *Stuff They Don't Want You to Know*, Ben Bowlin, Matthew Frederick, & Noel Brown, discern conspiracy fact from fiction in this sharp, humorous, compulsively readable, and gorgeously illustrated book. In times of chaos and uncertainty, when trust is low and economic disparity is high, when political institutions are crumbling and cultural animosities are building, conspiracy theories find fertile ground. Many are wild, most are untrue, a few are hard to ignore, but all of them share one vital trait: there's a seed of truth at their center. That seed carries the sordid, conspiracy-riddled history of our institutions and corporations woven into its DNA. Ben Bowlin, Matt Frederick, and Noel Brown host the popular iHeart Media podcast, *Stuff They Don't Want You To Know*. They are experts at exploring, explaining, and interrogating today's emergent conspiracies—from chem trails and biological testing to the secrets of lobbying and the indisputable evidence of UFOs. Written in a smart, witty, and conversational style, elevated with amazing illustrations, *Stuff They Don't Want*

You to Know is a vital book in understanding the nature of conspiracy and using truth as a powerful weapon against ignorance, misinformation, and lies.

**That Is All** John Hodgman, 2012-10-02 John Hodgman—bestselling author, The Daily Show's Resident Expert, minor television celebrity, and deranged millionaire—brings us the third and final installment in his trilogy of Complete World Knowledge. In 2005, Dutton published The Areas of My Expertise, a handy little book of Complete World Knowledge, marked by the distinction that all of the fascinating trivia and amazing true facts were completely made up by its author, John Hodgman. At the time, Hodgman was merely a former literary agent and occasional scribbler of fake trivia. In short: a nobody. But during an interview on The Daily Show with Jon Stewart, an incredible transformation occurred. He became a famous minor television personality. You may ask: During his whirlwind tornado ride through the high ether of minor fame and outrageous fortune, did John Hodgman forget how to write books of fake trivia? The answer is: Yes. Briefly. But soon, he remembered! And so he returned, crashing his Kansas farmhouse down upon the wicked witch of ignorance with More Information Than You Require, a New York Times bestseller containing even more mesmerizing and essential fake trivia, including seven hundred mole-man names (and their occupations). And now, John Hodgman completes his vision with That Is All, the last book in a trilogy of Complete World Knowledge. Like its predecessors, That Is All compiles incredibly handy made-up facts into brief articles, overlong lists, and beguiling narratives on new and familiar themes. It picks up exactly where More Information left off—specifically, at page 596—and finally completes COMPLETE WORLD KNOWLEDGE. Look out for John Hodgman's latest book, Vacationland, available from Viking in Fall 2017.
