Getting Free Ginny NiCarthy, 2013-03-05 Since its original publication in 1982, **Getting Free** has changed the lives of tens of thousands of women. Written in an accessible style, packed with practical information and answers, special exercises designed to help a woman recognize abuse, and several success stories, **Getting Free** remains an important resource today—and this updated edition makes it an all the more relevant resource. In this expanded edition, Ginny NiCarthy features important new information from the latest studies and most recent research on the subject. New chapters include an analysis of whether batterers’ treatment really works, which

programs help violent men change, and which do not; the results of research on the ways that many men who batter also abuse their children, and specific reactions of children to battering; the cultural and legal issues relevant to immigrant women; and a presentation of how religious beliefs and religious communities affect the real and perceived choices of women facing violence.

The Waste-Free World Ron Gonen, 2021-04-06 The next revolution in business will provide for a sustainable future, from founder, CEO and circular economy expert Ron Gonen Our take-make-waste economy has cost consumers and taxpayers billions while cheating us out of a habitable planet. But it doesn't have to be this way. *The Waste-Free World* makes a persuasive, forward-looking case for a circular economic model, a "closed-loop" system that wastes no natural resources. Entrepreneur, CEO and sustainability expert Ron Gonen argues that circularity is not only crucial for the planet but holds immense business opportunity. As the founder of an investment firm focused on the circular economy, Gonen reveals brilliant innovations emerging worldwide— "smart" packaging, robotics that optimize recycling, nutrient rich fabrics, technologies that convert food waste into energy for your home, and many more. Drawing on his experience in technology, business, and city government and interviews with leading entrepreneurs and top companies, he introduces a vital and growing movement. *The Waste-Free World* invites us all to take part in a sustainable and prosperous future where companies foster innovation, investors recognize long term value creation, and consumers can align their values with the products they buy.

A Libertarian Walks Into a Bear Matthew Hongoltz-

Hetling,2020-09-15 A tiny American town's plans for radical self-government overlooked one hairy detail: no one told the bears. Once upon a time, a group of libertarians got together and hatched the Free Town Project, a plan to take over an American town and completely eliminate its government. In 2004, they set their sights on Grafton, NH, a barely populated settlement with one paved road. When they descended on Grafton, public funding for pretty much everything shrank: the fire department, the library, the schoolhouse. State and federal laws became meek suggestions, scarcely heard in the town's thick wilderness. The anything-goes atmosphere soon caught the attention of Grafton's neighbors: the bears. Freedom-loving citizens ignored hunting laws and regulations on food disposal. They built a tent city in an effort to get off the grid. The bears smelled food and opportunity. *A Libertarian Walks Into a Bear* is the sometimes funny, sometimes terrifying tale of what happens when a government disappears into the woods. Complete with gunplay, adventure, and backstabbing politicians, this is the ultimate story of a quintessential American experiment -- to live free or die, perhaps from a bear.

'Subordination' versus 'Coordination' in Sentence and Text

Cathrine Fabricius-Hansen,Wiebke Ramm,2008-05-21 The papers collected in this volume (including a comprehensive introduction) investigate semantic and discourse-related aspects of subordination and coordination, in particular the relationship between

subordination/coordination at the sentence level and subordination/coordination – or hierarchical/non-hierarchical organization – at the discourse level. The contributions in part I are concerned with central theoretical questions; part II consists of corpus-based cross-linguistic studies of clause combining and discourse structure, involving at least two of the languages English, German, Dutch, French and Norwegian; part III contains papers addressing specific – predominantly semantic – topics relating to German, English or French; and the papers in part IV approach the topic of subordination, coordination and rhetorical relations from a diachronic (Old Indic and Early Germanic) perspective. The book aims to contribute to a better understanding of information packaging on the sentence and text level related, within a particular language as well as cross-linguistically.

Retail Tales and Nonsense Michael Dichter, 2010-10-28 Who Ya Bagging For? I have been told to bag for the cashier, the other bagger, or the supervisor. But very rarely have I been told to bag for the guest. This seems funny to me. Now if they wanted to tell me to take over for the other employee or the guest(s), that would make sense, but the easy, lazy way to communicate seems to be the only way they know how. You'd think someone that has the skills to do this job would at least know the difference between bagging for the cashier, etc., and the guests

Justice began a research project to learn how well fair began a research project to learn how well fair use and free expression are faring among artists, scholars, and others who make critical contributions to culture and democratic discourse. Our discussions with members of PEN American Center, Women Make Movies, the College Art Association, and the Location One Gallery yielded two common themes. The first was that artists and scholars have great interest in, and confusion about, fair use. The second was a need for community support and pro bono legal assistance in their dealings with publishers, distributors, and other cultural gatekeepers.
