Living Color Nina G. Jablonski,2012 This book investigates the social history of skin color from prehistory to the present, showing how our body's most visible trait influences our social interactions in profound and complex ways. The author begins with the biology and evolution of skin pigmentation, explaining how skin color changed as humans moved around the globe. She explores the relationship between melanin pigment and sunlight, and examines the consequences of rapid migrations, vacations, and other lifestyle choices that can create mismatches between our skin color and our environment. Richly illustrated, this book explains why skin color has come to be a biological trait with great social meaning-- a product of evolution perceived by culture. It considers how we form impressions of others, how we create and use stereotypes, how negative stereotypes about dark skin developed and have played out through history. Offering examples of how attitudes about skin color differ in the U.S., Brazil, India, and South Africa, the author suggests that a knowledge of the evolution and social importance of skin color can help eliminate color-based discrimination and racism.

The Reverse Coloring BookTM Kendra Norton,2021-08-31 Coloring books became a thing when adults discovered how relaxing and meditative they were. Jigsaw puzzles roared back into popularity as an immersive activity, not to mention a great alternative to television. How exciting is it, then, to introduce an activity that tops them both: reverse coloring, which not only confers the mindful benefits of coloring and puzzling but energizes you to feel truly creative, even when you're weary and just want to zone out. It's so simple, yet so profoundly satisfying. Each page in The Reverse Coloring Book has the colors, and you draw the lines. Created by the artist Kendra Norton, these beautiful and whimsical watercolors provide a gentle visual guide so open-ended that the possibilities are limitless. Trace the shapes, draw in figures, doodle, shade, cover an area with dots. Be realistic, with a plan, or simply let your imagination drift, as if looking at clouds in the sky. Each page is an invitation to slow down, let go, and thoughtfully (or thoughtlessly) let your pen find its way over the image. The Reverse Coloring Book includes 50 original works of art, printed on sturdy paper that's single-sided and perforated. And unlike with traditional coloring books, all you need is a pen.

Color Matters Kimberly Jade Norwood,2013-12-17 In the United States, as in many parts of the world, people are discriminated against based on the color of their skin. This type of skin tone bias, or colorism, is both related to and distinct from discrimination on the basis of race, with which it is often conflated. Preferential treatment of lighter skin tones over darker occurs within racial and ethnic groups as well as between them. While America has made progress in issues of race over the past decades, discrimination on the basis of color continues to be a constant and often unremarked part of life. In *Color Matters*, Kimberly Jade Norwood has collected the most up-to-date research on this insidious form of discrimination, including perspectives from the disciplines of history, law, sociology, and psychology. Anchored with historical chapters that show how the influence and legacy of slavery have shaped the treatment of skin color in American society, the contributors to this volume bring to light the ways in which colorism affects us all—influencing what we wear, who we see on television, and even which child we might pick to adopt. Sure to be an eye-opening collection for anyone curious about how race and color continue to affect society, *Color Matters* provides students of race in America with wide-ranging overview of a crucial topic.

A Year of Coloring Affirmations for New Mothers is an adult coloring book that includes 52 coloring pages of positive affirmations to give new mothers the encouragement, confidence, inner strength and coping abilities they need to get through the unexpected ups and downs of the early years of motherhood. Motherhood is something that nobody can really prepare for. You can read every book, follow every routine, do everything right, have the perfect baby, and still not cope. Sometimes it's hormones, sometimes it's post natal depression, and sometimes it's just a bad day. In those moments, it's hard to ask for help, but sometimes all it takes is an encouraging word or a boost of confidence to get through. One positive thought can change your entire day. Affirmations can sometimes feel forced and it can be hard to embrace them. We are encouraged by experts to repeat our affirmations out loud, multiple times a day. Coloring page affirmations combine the therapeutic art of coloring with the power of positive thinking and visualization. Through the meditation and mindful focus of coloring, you are absorbing the positive message on each page without having to force yourself to repeat it. You are expanding the concept of positive affirmations to appeal to more of your senses - rather than just speaking and hearing, you can now touch and visualize as well. By working on the same page for multiple days, you are establishing positive thoughts in your long term memory and changing your entire way of thinking. Roy G. Biv Jude Stewart,2014-11-20 Why is the sky blue? Why is pink for girls and blue for boys? Why do prisoners wear orange? And why can one colour have so many opposite meanings? If lobsters are a red emblem of privilege how is it that a red flag can also be the banner of Communism? Jude Stewart, a design expert and writer, digs into this rich subject with gusto, telling her favourite stories about colour as she discovers what it can really mean. Each chapter is devoted to a colour, opening with an infographic map that links such unlikely pairings as fox-hunting and flamingos. From there on in, you're plunged into a kaleidoscopic tour of the universe that encompasses everything from wildflowers to Japanese warriors. The links between them reveal hidden realities that you never would have suspected. Roy G. Biv is a reference and inspiration for everyone, with sidebars and graphics galore.
