**The Angel of the Revolution: A Tale of the Coming Terror** George Chetwynd Griffith, 1895 To begin at the beginning, Richard Arnold was one of those men whom the world is wont to call dreamers and enthusiasts before they succeed, and heaven-born geniuses and benefactors of humanity afterwards. He was twenty-six, and for nearly six years past he had devoted himself, soul and body, to a single idea—to the so far unsolved problem of aërial navigation. This idea had haunted him ever since he had been able to think logically at all—first dimly at school, and then more clearly at college, where he had carried everything before him in mathematics and natural science, until it had at last become a ruling passion that crowded everything else out of his life, and made him, commercially speaking, that most useless of social units—a one-idea'd man, whose idea could not be put into working form. He was an orphan, with hardly a blood relation in the world. He had started with plenty of friends, mostly made at college, who thought he had a brilliant future before him, and therefore looked upon him as a man whom it might be useful to know. But as time went on, and no results came, these dropped off, and he got to be looked upon as an amiable lunatic, who was wasting his great talents and what money he had on impracticable fancies, when he might have been earning a handsome income if he had stuck to the beaten track, and gone in for practical work. The distinctions that he had won at college, and the reputation he had gained as a wonderfully clever chemist and mechanician, had led to several

offers of excellent positions in great engineering firms; but to the surprise and disgust of his friends he had declined them all. No one knew why, for he had kept his secret with the almost passionate jealousy of the true enthusiast, and so his refusals were put down to sheer foolishness, and he became numbered with the geniuses who are failures because they are not practical. When he came of age he had inherited a couple of thousand pounds, which had been left in trust to him by his father. Had it not been for that two thousand pounds he would have been forced to employ his knowledge and his talents conventionally, and would probably have made a fortune. But it was just enough to relieve him from the necessity of earning his living for the time being, and to make it possible for him to devote himself entirely to the realisation of his life-dream—at any rate until the money was gone. Of course he yielded to the temptation—nay, he never gave the other course a moment's thought. Two thousand pounds would last him for years; and no one could have persuaded him that with complete leisure, freedom from all other concerns, and money for the necessary experiments, he would not have succeeded long before his capital was exhausted.

**The Angel of the Revolution** George Griffith, 2014-10 'The Brotherhood of Freedom' is out to take over the world using airship warfare. The group is led by a brilliant Russian Jew and his daughter, the 'angel' Natasha. They manage to establish a 'pax aeronautica' over the earth after a young inventor masters the technology of flight in 1903, and the war progresses to the heart of

Russia and against the Russian Czar.

Griffith, 2018-07-31 The Angel of Revolution by George Griffith The Angel of the Revolution: A Tale of the Coming Terror is a science fiction novel by English writer George Griffith. It was his first published novel and remains his most famous work. It was first published in Pearson's Weekly and was prompted by the success of The Great War of 1892 in Black and White magazine, which was itself inspired by The Battle of Dorking. We are delighted to publish this classic book as part of our extensive Classic Library collection. Many of the books in our collection have been out of print for decades, and therefore have not been accessible to the general public. The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature, and our view is that this is a significant literary work, which deserves to be brought back into print after many decades. The contents of the vast majority of titles in the Classic Library have been scanned from the original works. To ensure a high quality product, each title has been meticulously hand curated by our staff. Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work. We hope that you will enjoy this wonderful classic work, and that for you it becomes an enriching experience.

Terror (1893) is a science fiction novel by the English writer George Griffith. It was his first published novel and remains his most famous work. It was first published in Pearson's Weekly and was prompted by the success of The Great War of 1892 in Black and White magazine, which was itself inspired by The Battle of Dorking. A lurid mix of Jules Verne's futuristic air warfare fantasies and the utopian visions of News from Nowhere, and a precursor of Welles' future The War in the Air and the war invasion literature of George Tomkyns Chesney and his imitators, it told the tale of a group of self-styled 'terrorists' who conquer the world through airship warfare. Led by a crippled, brilliant Russian Jew and his daughter, the 'angel' Natasha, 'The Brotherhood of Freedom' establish a 'pax aeronautica' over the earth after a young inventor masters the technology of flight in 1903. The hero falls in love with Natasha and joins in her war against established society in general and the Russian Czar in particular

*The Angel of Revolution* George Griffith, 2021-02-09 VICTORY! It flies! I am master of the Powers of the Air at last! They were strange words to be uttered, as they were, by a pale, haggard, half-starved looking young fellow in a dingy, comfortless room on the top floor of a South London tenement-house; and yet there was a triumphant ring in his voice, and a clear, bright flush on his thin cheeks that spoke at least for his own absolute belief in their truth. Let us see how far he was justified in that belief. To begin at the beginning, Richard Arnold was one of those men whom the world is wont to call dreamers and enthusiasts before they succeed, and heaven-born geniuses and benefactors of humanity afterwards. He was twenty-six, and for nearly six years past he had devoted himself, soul and body, to a single idea—to the so far unsolved problem of aerial navigation. **The Angel of the Revolution** George C. Griffith, 2015-11-26 Written in the prophetic technological vein of Jules Verne and H.G. Wells, Griffith's epic masterpiece tells the story of a Great War which never was. Airship squadrons and steam fleets clash over the world's great kingdoms, leaving panic and devastation in their wake. What is the secret of the mysterious dark Angel, Natasha? Can anyone stop the tyrannical ethernauts who pilot the stately war machines? Will the British Empire crumble and fall prey to the anarchists of the air?

**Angel in the Whirlwind** Benson Bobrick, 2011-01-11 Angel in the Whirlwind is the epic tale of the American Revolution, from its roots among tax-weary colonists to the triumphant Declaration of Independence and eventual victory and liberty, recounted by Benson Bobrick, lauded by The New York Times as “perhaps the most interesting historian writing in America today.” Overwhelmed with debt following its victory in the French and Indian Wars, England began imposing harsh new tariffs and taxes on its colonists in the 1760s. Rebellion against these measures soon erupted into war. Bobrick thrillingly describes all the major battles, from Lexington and Concord to the dramatic siege of Yorktown, when the British flag was finally lowered before patriot guns. At the same time he weaves together social and political history along with the military history, bringing to life not only the charismatic leaders of the independence movement, but also their lesser-known compatriots, both patriot and loyalist, English and American, whose voices vividly convey the urgency of war. Illuminated by fresh insight, Angel in the Whirlwind is a dramatic narrative of

our nation's birth, in all its passion and glory.
