**The Tree Lady** H. Joseph Hopkins,2013-09-17 Unearth the true story of green-thumbed pioneer and activist Kate Sessions, who helped San Diego grow from a dry desert town into a lush, leafy city known for its gorgeous parks and gardens. Katherine Olivia Sessions never thought she'd live in a place without trees. After all, Kate grew up among the towering pines and redwoods of Northern California. But after becoming the first woman to graduate from the University of California with a degree in science, she took a job as a teacher far south in the dry desert town of San Diego. Where there were almost no trees. Kate decided that San Diego needed trees more than anything else. So this trailblazing young woman singlehandedly started a massive movement that transformed the town into the green, garden-filled oasis it is today. Now, more than 100 years after Kate first arrived in San Diego, her gorgeous gardens and parks can be found all over the city. Part fascinating biography, part inspirational story, this moving picture book about following your dreams, using your talents, and staying strong in the face of adversity is sure to resonate with readers young and old.

**Every Night the Trees Disappear** Alan Greenberg, Werner Herzog, 2012-05-01 You know from seeing it that Herzog was up to something strange in filming *Heart of Glass*. Now the mystery is clarified. Alan Greenberg peers into the heart of darkness of the great artist. —Roger Ebert&“Mesmerizing . . . as poetic and mysterious as the film itself.&”—Jim Jarmusch This intimate chronicle of the visionary filmmaker Werner Herzog directing a masterwork is interwoven with Herzog's original screenplay to create a unique vision of its own. Alan Greenberg was, according to the director, the first &“outsider&” to seek him out and recognize his greatness. At the end of their first evening together Herzog urged Greenberg to work with him on his new film--and everything thereafter. In this film, *Heart of Glass*, Herzog exercised control over his actors by hypnotizing them before shooting their scenes. The result was one of the most haunting movies ever made. Not since Lillian Ross's classic 1950 book *Picture* has an American writer given such a close, first-hand, book-length account of how a director makes a movie. But this is not a conventional, journalistic account. Instead it presents a unique vision with the feel of a novel--intimate, penetrating, and filled with mystery. Alan Greenberg is a writer, film director, film producer, and photographer. He is also the author of *Love in Vain: A Vision of Robert Johnson*. Werner Herzog is considered one of the world's greatest filmmakers. His books include *Conquest of the Useless* and *Of Walking in Ice*.

Eager to honor the woman they loved, Ian and Mattie embark on an epic journey, leaving notes to Kate in wishing trees along the way, and encountering miracles large and small. And as they begin to find their way back to each other, they discover that healing is possible and love endures—lessons that Kate hoped to show them all along...

**The Island of Missing Trees** Elif Shafak, 2021-11-02 A REESE'S BOOK CLUB PICK Winner of the 2022 BookTube Silver Medal in Fiction \* Shortlisted for the Women's Prize for Fiction A wise novel of love and grief, roots and branches, displacement and home, faith and belief. Balm for our bruised times. -David Mitchell, author of Utopia Avenue A rich, magical new novel on belonging and identity, love and trauma, nature and renewal, from the Booker-shortlisted author of 10 Minutes 38 Seconds in This Strange World. Two teenagers, a Greek Cypriot and a Turkish Cypriot, meet at a taverna on the island they both call home. In the taverna, hidden beneath garlands of garlic, chili peppers and creeping honeysuckle, Kostas and Defne grow in their forbidden love for each other. A fig tree stretches through a cavity in the roof, and this tree bears witness to their hushed, happy meetings and eventually, to their silent, surreptitious departures. The tree is there when war breaks out, when the capital is reduced to ashes and rubble, and when the teenagers vanish. Decades later, Kostas returns. He is a botanist looking for native species, but really, he's searching for lost love. Years later a Ficus carica grows in the back garden of a house in London where Ada Kazantzakis lives. This tree is her only connection to an island she has never visited--- her only connection to her family's troubled history and her complex identity as she seeks to untangle years of secrets to find her place in the world. A moving, beautifully written, and delicately constructed story of love, division, transcendence, history, and eco-consciousness, *The Island of Missing Trees* is Elif Shafak's best work yet.

**A Way to Garden** Margaret Roach, 2019-04-30 “A Way to Garden prods us toward that ineffable place where we feel we belong; it’s a guide to living both in and out of the garden.” —The New York Times Book Review For Margaret Roach, gardening is more than a hobby, it’s a calling. Her unique approach, which she calls “horticultural how-to and woo-woo,” is a blend of vital information you need to memorize and intuitive steps you must simply feel and surrender to. In *A Way to Garden*, Roach imparts decades of garden wisdom on seasonal gardening, ornamental plants, vegetable gardening, design, gardening for wildlife, organic practices, and much more. She also challenges gardeners to think beyond their garden borders and to consider the ways gardening can enrich the world. Brimming with beautiful photographs of Roach’s own garden, *A Way to Garden* is practical, inspiring, and a must-have for every passionate gardener.

**The Trees** Ali Shaw, 2016-08-02 *The Trees*. They arrived in the night: wrenching through the ground, thundering up into the air, and turning Adrien's suburban street into a shadowy forest. Shocked by the sight but determined to get some answers, he ventures out, passing destroyed buildings, felled power lines, and broken bodies still wrapped in tattered bed linens hanging from branches. It is soon apparent that no help is coming and that these trees, which seem the work of centuries rather than hours, span far beyond the town. As far, perhaps, as the coast, where across the sea in Ireland, Adrien's wife is away on a business trip and there is no way of knowing whether she is alive or dead. When Adrien meets Hannah, a woman who, unlike him, believes that the coming of the trees may signal renewal rather than destruction and Seb, her technology-obsessed son, they persuade him to join them. Together, they pack up what remains of the lives they once had and set out on a quest to find Hannah's forester brother and Adrien's wife--and to discover just how deep the forest goes. Their journey through the trees will take them into unimaginable territory: to a place of terrible beauty and violence, of deadly enemies and unexpected allies, to the dark heart of nature and the darkness--and also the power--inside themselves.

**Trees Tall As Mountains** Rachel Devenish Ford, 2013-06-20 In 2005, Rachel Devenish Ford, 25-year-old pregnant mother of two, moved with her husband to the woods of Northern California and began her blog, *Journey Mama*. In writing about her life—all the funny things, the sad things, and the beautiful—she found a way to see it again for the first time, and a way to cultivate joy in a life that had been overwhelming to her. In the process, she encouraged and inspired people around the world. The first in a series, *Trees Tall as Mountains* is a collection of

the best posts of the first three years of Journey Mama. In them, Rachel Devenish Ford describes life in an intentional community, her love for her Superstar Husband, her dysfunctional relationship with large grocery stores, and the antics of her young children. As Rachel works to overcome sometimes crushing anxiety, love the people around her, and grow in her faith in God, she writes about it all with tenderness and humor. Funny and profound, *Trees Tall as Mountains* is a life-changing book.

*If He Had Been with Me* Laura Nowlin, 2013-04-02 If he had been with me everything would have been different... I wasn't with Finn on that August night. But I should've been. It was raining, of course. And he and Sylvie were arguing as he drove down the slick road. No one ever says what they were arguing about. Other people think it's not important. They do not know there is another story. The story that lurks between the facts. What they do not know—the cause of the argument—is crucial. So let me tell you...

*The Man Who Plants Trees* Jim Robbins, 2013-05-16 This is an extraordinary book about trees. It's an account by a veteran science journalist that ranges to the limits of scientific understanding: how trees produce aerosols for protection and 'warnings'; the curative effects of 'forest bathing' in Japan; or the impact of trees in fertilizing ocean plankton. There is even science to show that trees are connected to the stars. Trees and forests are far more than just plants: they have myriad functions that help maintain the atmosphere and biosphere. As climate change increases, they will become even more critical to buffer the effects of warmer temperatures, clean our water and air and provide food. If they remain standing. The global forest is also in crisis, and when the oldest trees in the world suddenly start dying - across North America, Europe, the Amazon - it's time to pay attention. At the heart of this remarkable exploration of the power of trees is the amazing story of one man, a shade tree farmer named David Milarch, and his quest to clone the oldest and largest trees - from the California redwoods to the oaks of Ireland - to protect the ancient genetics and use them to reforest the planet.
