- 📖 Studies in German Grammar Jindrich Toman,2017-03-06 The architecture of the human language faculty has been one of the main foci of the linguistic research of the last half century. This branch of linguistics, broadly known as Generative Grammar, is concerned with the formulation of explanatory formal accounts of linguistic phenomena with the ulterior goal of gaining insight into the properties of the ‘language organ’. The series comprises high quality monographs and collected volumes that address such issues. The topics in this series range from phonology to semantics, from syntax to information structure, from mathematical linguistics to studies of the lexicon. Funny, furry and fantastic! --Judd Winick, New York Times bestselling creator of the Hilo series Max Meow’s super heroics will have kids meow-ling with laughter! --John Patrick Green, creator of the InvestiGators series
- 📖 Meow Anouska Jones,2015-03-15 Cats have a way of walking into our lives and making themselves right at home. No cat lover can imagine life without a feline presence -- even if it is only as fleeting as the occasional conversation with a neighbourhood stray. Meow: A book of happiness for cat lovers is a compendium of delightful quotes that capture the essence of this fascination. Some are by famous people (Mark Twain, Jean Cocteau, Ernest Hemingway), others not; some are philosophical, others lighthearted -- all are memorable. Accompanied by beautiful photography, and presented in a high-quality gift format, this is a collection of quotes to treasure.
- 📖 Rainbows and Clouds Erika M Szabo,2019-01-29 A collection of humorous anecdotes, heartwarming stories, and slice-of-life tales that evoke a wide range of emotions. Short stories about life’s humorous, happy, and dark moments. Some of the stories are from my years in nursing, Steve’s clumsiness and my cooking disasters might make you spit out your coffee laughing. The stories of my pets will put a warm smile on your face, and the stories about life’s darker moments might make you wipe a tear or two. Rainbows and dark clouds are part of life, without darkness, there can be no light. Without moments that make us cry, we can’t enjoy moments that make us smile. Without moments that make us laugh, we can’t get through moments that make us sad. ~Erika M Szabo Editorial review: The Rainbows and Clouds by Erika M Szabo is a collection of fun anecdotes, heartwarming stories, and slice-of-life tales that evoke a wide range of emotions. It’s impossible to choose a favorite story because I loved them all, particularly the tales that explored the challenges of having a pet. There are several stories within this collection that explore the best - and the worst - of humanity. We are reminded that not everything, or everyone, is what they appear to be and that the best things in life are often surprises. I would absolutely recommend this book to everyone! It truly is something special. ~Tricia Drammeh

- 📖 The Grammar of Thinking Daniela E. Casartelli,Silvio Cruschina,Pekka Posio,Stef Spronck,2023-09-04 Sentence (1) represents the phenomenon of reported thought, (2) that of reported speech: (1) Sasha thought: This is fine or Sasha thought that this would be fine (2) Sasha said: This is fine or Sasha said that this would be fine While sentences as in (1) have often been discussed in the context of those in (2) the former have rarely received specific attention. This has meant that much of the semantic and structural complexity, cross-linguistic variation, as well as the precise relation between (1) and (2) and related phenomena have remained unstudied. Addressing this gap, this volume represents the first collection of studies specifically dedicated to reported thought. It introduces a wide variety of cross-linguistic examples of the phenomenon and brings together authors from linguistic typology, corpus and interactional linguistics, and formal and functional theories of syntax to shed light on how talking about thoughts can become grammar in the languages of the world. The book should be of interest to linguists, philosophers of language, linguistic anthropologists and communication specialists seeking to understand topics at the boundary of stylistics and morphosyntax, as well as the grammar of epistemicity.
- 📖 Eurythmy as Visible Speech Rudolf Steiner,2019-10-23 Following his lecture-course Eurythmy as Visible Singing, these fundamental lectures on speech eurythmy – offered in response to specific requests – gave Rudolf Steiner the opportunity to complete the foundations of the new art of movement. Speaking to eurythmists and invited artists, Steiner connects to the centuries-old esoteric and exoteric Western traditions of ‘the Word’ – the creative power in the sounds of the divine-human alphabet – giving it concrete form and expression in the performing arts, education and therapy. In addition to the fifteen lectures in the course, this special edition features supporting lectures and reports by Rudolf Steiner, dozens of photographs and line drawings, as well as introductions, commentary, notes and supplementary essays compiled by editor Alan Stott, including ‘Eurythmy and the English Language’ by Annelies Davidson. Although aimed primarily at the professional concerns of eurythmists who perform, teach or work as therapists, the lectures offer a wealth of suggestions and insights to those with artistic questions and concerns. ‘Only someone who creatively unfolds a sense for art from an inner calling, an inner enthusiasm, can work as an artist in eurythmy. To manifest those possibilities of form and movement inherent in the human organisation, the soul must inwardly be completely occupied with art. This all-embracing character of eurythmy was the foundation for all that was presented.’ – Rudolf Steiner ‘For the poet, for the thinker, and for the movement artist who thinks with his/her whole body, the highest mental act is done with all their heart and with all their mind and with all their soul.’ – Alan Stott
