The Emperor's New Clothes (Illustrated) Hans Christian Andersen,2018-10-13 Rare edition with unique illustrations. Hans Christian Andersen was a Danish author best known for writing children's stories including The Little Mermaid and The Ugly Duckling. But he didn't just write short stories, and his intended audience wasn't restricted to children. In addition to his fairy tales, Andersen wrote poems, plays, novels, travel books, essays, and more. He hungered for recognition at home (Denmark) and abroad-and he got it! Eventually. Today, his stories can be read in over one hundred languages. But no matter what language they're in, Andersen's tales have got something for everyone. In them, you'll find beauty, tragedy, nature, religion, artfulness, deception, betrayal, love, death, judgment, penance, and-occasionally-a happy ending. They're complex tales, but since Andersen himself was pretty complex, we like to think that art imitates life. Or something like that. The Emperor's New Clothes (Danish: Kejserens nye Kl?der) is a short tale by Hans Christian Andersen about two weavers who promise an Emperor a new suit of clothes that is invisible to those who are unfit for their positions, stupid, or incompetent. When the Emperor parades before his subjects in his new clothes, no one dares to say that he doesn't see any suit of clothes until a child cries out, But he isn't wearing anything at all! The tale has been translated into over a hundred languages.

The Gender Question In Education Ann Diller,2018-10-08 In this innovative book, four prominent philosophers of education introduce readers to the central debates about the role of gender in educational practice, policymaking, and theory. More a record of a continuing conversation than a statement of a fixed point of view, The Gender Question in Education enables students and practicing teachers to think through to their own conclusions and to add their own voices to the conversation.Throughout, the authors emphasize the value of a gender-sensitive perspective on educational issues and the relevance of an ethics of care for educational practice. Among the topics discussed are feminist pedagogy, gender freedom in public education, androgyny, sex education, multiculturalism, the inclusive curriculum, and the educational significance of an ethics of care.The multiauthor, dialogic structure of this book provides unusual breadth and cohesiveness as well as a forum for the exchange of ideas, making it both an ideal introduction to gender analysis in education and a model for more advanced students of gender issues.

Social Media Marketing Alan Charlesworth,2017-11-21 Published in 1837, Hans Christian Andersen’s The Emperor's New Clothes tells the tale of two weavers who present a non-existent suit of clothes to the Emperor with the caution that the suit is invisible to those who are unfit for their positions, stupid, or incompetent. As the Emperor parades in his underwear no one dares to say that they see no clothes—with the exception for one small child who exclaims; “he isn’t wearing anything at all.” Fast forward to the present day and business owners and managers around the world are told that anyone who cannot see the benefits of social media marketing are unfit for their positions, stupid, or incompetent. As organizations, brands and products fill the social media landscape with meaningless, objectiveless drivel that has interest to no one and serves only to waste resources and alienate customers, a small voice can be heard exclaiming; “who told you that was a good idea?” The caveat to this contemporary tale is that for a very few organizations, brands and products, social media has provided a kind-of marketing panacea. Correction: make that a very, very few organizations. For the rest, they are metaphorically parading in their digital underwear. All is not lost however. Although many have been duped in a new clothes-esque sting, and that their social media marketing efforts are indeed, invisible—but marketing on social media might just be riding to the rescue.

The Emperor's New Road Jonathan E. Hillman,2020-09-29 A prominent authority on China’s Belt and Road Initiative reveals the global risks lurking within Beijing’s project of the century China’s Belt and Road Initiative is the world’s most ambitious and misunderstood geoeconomic vision. To carry out President Xi Jinping’s flagship foreign-policy effort, China promises to spend over one trillion dollars for new ports, railways, fiber-optic cables, power plants, and other connections. The plan touches more than one hundred and thirty countries and has expanded into the Arctic, cyberspace, and even outer space. Beijing says that it is promoting global development, but Washington warns that it is charting a path to global dominance. Taking readers on a journey to China’s projects in Asia, Europe, and Africa, Jonathan E. Hillman reveals how this grand vision is unfolding. As China pushes beyond its borders and deep into dangerous territory, it is repeating the mistakes of the great powers that came before it, Hillman argues. If China succeeds, it will remake the world and place itself at the center of everything. But Xi may be overreaching: all roads do not yet lead to Beijing.
