*Studies of the Human Aura* Kuthumi, 1975 ...In *Studies of the Human Aura*, the Master Kuthumi provides a framework for discovering a new dimension of yourself - a dimension that is not incompatible with twentieth-century living. Through a threefold exercise he enables you to advance your consciousness, harness the energy and intelligence that are native to your being, and more clearly become the author of your own destiny -- Back cover.

**The Human Aura** Swami Panchadasi, 2009-01-01 In common parlance, an 'aura' is a metaphysical emanation that provides insight into the mental and spiritual character and well-being of an individual. Those with advanced psychic sensitivities can often perceive the auras of others and their various shades and shapes. Written by renowned New Thought leader Swami Panchadasi, *The Human Aura: Astral Colors and Thought Forms* presents an authoritative introduction to the subject, as well as practical techniques to aid the reader in perceiving and interpreting others' auras.

The Human Aura Dr. Douglas M. Baker, 2014-04-10 *The Human Aura: A Study of Human Energy Fields* Dr. Douglas Baker graduated in medicine at Sheffield University in 1964 and has consistently brought to the attention of the public those aspects of Man's holistic nature which constitute the borderlands of scientific knowledge. He is a prolific author who lists scientific explanations as well as examples from ordinary life to bring home the truth of the most complex and abstract metaphysical teachings in the words of today. In this authoritative study of human energy fields, Dr. Baker clearly defines the nature and Function of the human aura and how it can be used to enhance the quality of our lives, and of those around us. Combining his medically trained research with 45 years of metaphysical orientation, the author is able to dispel the existing confusion and gross misconception about the aura. The reader is introduced to new and exciting features of the human aura, and numerous examples - both historic and contemporary - of the vast range of its attributes are presented in a way that is both fascinating and instructive.

**How to See and Read the Human Aura** Judith Collins, 1996 Collins helps to demystify the aura and explains how a

person can perceive and read their own aura and that of others. Includes eye strengthening and development exercises to enable the reader to see the size of an aura. Colours and colour combinations are discussed with their meanings.

*The Origin and Properties of the Human Aura* Oscar Bagnall,1975 Both scientific and occult groups are investigating the aura, which has been described as a radiation or emanation surrounding the physical body. Interest in this phenomenon has grown tremendously since Dr. Walter J. Kilner first published the results of his scientific investigations over sixty-three years ago, in the Human Atmosphere. Kilner found a worthy successor in Oscar Bagnall, who devoted his own life's worth to continuing this research into the Origin and Properties of the Human Aura. He provides a detailed description of the properties of the aura, and produces experimental evidence to support his claim to have discovered the particular tissues from which the component parts of the aura have their origin. The effects of disease on the inside aura and of nervous and sexual disorders on the outer haze beyond it are described, and the question of heredity is discussed. Instructions are given for the preparation of screens through which it is possible to see the aura, together with a clear account of the physical problems in connection with it such as wave-length, etc.

*The Human Aura* William Walker Atkinson,2015-11-26 The above question is frequently asked the student of occultism by some one who has heard the term but who is unfamiliar with its meaning. Simple as the question may seem, it is by no means easy to answer it, plainly and clearly in a few words, unless the hearer already has a general acquaintance with the subject of occult science. Let us commence at the beginning, and consider the question from the point of view of the person who has just heard the term for the first time. The dictionaries define the word aura as: Any subtle, invisible emanation or exhalation. The English authorities, as a rule, attribute the origin of the word to a Latin term meaning air, but the Hindu authorities insist that it had its origin in the Sanscrit root Ar, meaning the spoke of a wheel, the significance being perceived when we remember the fact that the human aura radiates from the body of the individual in a manner similar to the radiation of the spokes of a wheel from the hub thereof. The Sanscrit origin of the term is the one preferred by occultists, although it will be seen that the idea of an aerial emanation, indicated by the Latin root, is not foreign to the real significance of the term.

**The Human Aura; a Study** A Marques,2013-09 This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not

indexed. Not illustrated. 1896 edition. Excerpt: ... when the Akasha happens to be predominant, the Akashic portion with its characteristic figures will flow along and to the tip of the thumb, while the Vayu portion goes along the first finger, the Tejas along the middle one, the Apas along the ring finger, and the Prithivi along the little finger, these fractions re-combining again into one current as they flow back to the wrist; and similarly with the other four series. This peculiarity gives the Indian occultist the power of knowing--by the variations and splitting of the pulse vibrations, in combination with the finger auras--which of the Tatwas is affected in a disease. While in the Tatwic emanations can be traced even the idiosyncracies of the nation or race to which a person belongs, they also indicate the state of health, and, in ladies, certain physiological conditions. In fact, every disease, nay every disturbance, is clearly shown in various parts of the patient's aura. In connection with this fact, Rama Prasad and other Hindu psychologists reveal the great secret of occult medicine, when they say that every disease is only a disturbance of the Tatwas; and this brings them to connect the colors of a disease with those of the medicinal substance that can cure it. To act on a disease, the aura of the medicine must be--both in its Tatwic colors and geometrical figures--as nearly homeopathic as possible to the colors and figures in the patient's aura that are characteristic of the disease. Therefore there can be no doubt that the efforts of the medicine of the future will be directed to the study of all auras and especially to the comparison between those of the remedy and of the patient. However, this question opens such new and unsuspected speculations of immense interest to...
