I Guess I Live Here Now Claire Ahn, 2022-05-24 Seoul, Korea. In this glittering city where the latest trends are born, Melody finds herself swept away by luxury, romance, and family drama... but is this a place she could ever call home? Thanks to a tiny transgression after school one day, Melody is shocked to discover that her parents have decided to move her and her mom out of New York City to join her father in Seoul—immediately! Barely having had the chance to say goodbye to her best friend before she's on a plane, Melody is resentful and homesick. But she soon finds herself settling into their super-luxe villa, meeting cool friends at school, and discovering the alluring aspects of living in Korea—trendsetting fashion, delectable food, her dad's black card, and a cute boy to explore the city with. Life in Seoul is amazing, until cracks begin to form on its glittering surface... Claire Ahn's charming debut lets you hear every beat of a K-pop bop, taste every savory bite of Korean barbecue, bathe in the glow of Seoul's neon lights, and feel every high and low of Melody's emotional journey across the world and within her heart.

The Offer Lance E. Clippinger, 2006-09-19 Almost 2,000 years ago Jesus offered to Israel not only spiritual salvation, but political and physical salvation as well. This offer was made with one crucial requirement or condition, which Israel failed to meet. Just before Jesus' second coming Israel will fulfill this condition and The Offer will be received. Why did Jesus conceal and try to hush up some of His miracles? Why did Jesus command the disciples to tell no one that He was the Christ? Why was Jerusalem and its temple destroyed in 70 A.D. and will the temple be rebuilt? Will there be a forerunner (like John the Baptist) who prepares the way for Jesus' second coming? In the end times, how will the nation of Israel come to believe in Jesus? What will it be like for Christians to live and rule with Jesus on the earth? These questions and many more are answered in The Offer. Lance Clippinger demonstrates that if we understand what Jesus offered Israel, many of our questions about the Bible, Jesus, the time we live in, and the future of our world will be answered.

Making Short Films, Third Edition Clifford Thurlow, Max Thurlow, 2013-05-25 Making movies is the most exciting way to earn a living and it is not surprising that media and film studies remain the most popular courses at colleges across the western world. A short film provides an opportunity for elliptical, poetic, condensed story telling. Shorts can take risks rarely seen in features. It is the arena where a strong voice or individual vision is possible; an invitation for experimentation and originality. Making Short Films, 3rd edition is entirely revised and restructured, providing a much more complete and detailed guide to filmmaking, with more information on new technology, illustrations and ideas for best practice.

The Multimedia Writing Toolkit Sean Ruday, 2016-11-25 The Multimedia Writing Toolkit demonstrates how, by drawing on students' interest in and familiarity with technology, you can integrate multimedia to maximize the potential of writing instruction. In eight concise chapters, author Sean Ruday identifies and describes simple, common forms of multimedia that upper-elementary and middle school students can use to improve their argument, informational, and narrative writing and critical thinking. You'll learn how to: Incorporate multimedia into argument, informational, and narrative writing through students' use of video topic trailers, online discussion boards, webpages, and more. Evaluate students on effective use of multimedia through easy-to-follow rubrics and explicitly articulated learning goals. Understand more fully the key forms of multimedia through user-friendly overviews and explanations; you don't need to be a techie teacher to use these strategies! Overcome possible obstacles to the integration of multimedia in the classroom by learning from the author's concrete, first-hand examples and instructional recommendations. This book is complete with resources designed to provide you with extra support, including reproducible classroom-appropriate charts and forms, links to key web-based content discussed in the book, and a guide for teachers and administrators interested in using the book for group-based professional development. With The Multimedia Writing Toolkit, you'll have a clear game plan for encouraging your students to become more engaged, technologically savvy learners. Bonus: Blank templates of the handouts are available as printable eResources on our website (www.routledge.com/9781138200111).

Exploring Management John R. Schermerhorn, Jr., Daniel G. Bachrach, 2020-12-22 Exploring Management, 7th Edition supports teaching and learning of core management concepts by presenting material in a straightforward, conversational style with a strong emphasis on application. With a focus on currency, high-interest examples and pedagogy that encourages critical thinking and personal reflection, Exploring Management, 7th Edition is the perfect balance between what students need and what instructors want. Organized by study objectives and broken up into more manageable sections of material, the Seventh Edition supports better student comprehension and mastery of concepts. And features like skill builders, active learning activities, and team projects give students frequent opportunities to apply management concepts. Class activities provide opportunities for discussion and debate. Students can build solid management skills with self-assessments, class exercises, and team projects.

Third International Conference on Image Processing and Capsule Networks Joy long-Zong Chen, João Manuel R. S. Tavares, Fuqian Shi, 2022-07-28 This book provides a collection of the state-of-the-art research attempts to tackle the challenges in image and signal processing from various novel and potential research perspectives. The book investigates feature extraction techniques, image enhancement methods, reconstruction models, object detection methods, recommendation models, deep and temporal feature analysis, intelligent decision support systems, and autonomous image detection models. In addition to this, the book also looks into the potential opportunities to monitor and control the global pandemic situations. Image processing technology has progressed significantly in recent years, and it has been commercialized worldwide to provide superior performance with enhanced computer/machine vision, video processing, and pattern recognition capabilities. Meanwhile, machine learning systems like CNN and CapsNet get popular to provide better model hierarchical relationships and attempts to more closely mimic biological neural organization. As machine

learning systems prosper, image processing and machine learning techniques will be tightly intertwined and continuously promote each other in real-world settings. Adopting this trend, however, the image processing researchers are faced with few image reconstruction, analysis, and segmentation challenges. On the application side, the orientation of the image features and noise removal has become a huge burden.
