Contemplations John O'Loughlin, 2022-03-19 There are three books of 'abstract poems' in this unusual project, which might better be described as 'word art', and they are of a character that defies intellectual intelligibility and invites a certain contemplative frame-of-mind more conducive to spirituality and, hence, to self-transcendence, meaning, in this instance, the transcendence of that fulcrum of intellect, the ego. In that sense, these 'poems' are profoundly anti-literary and correspondingly closer to the true spirit of art.

Contemplative Abstracts John O'Loughlin, 2022-03-10 CONTEMPLATIVE ABSTRACTS is the logical sequel to 'Abstracts' (1983) which, being readerly, or capable of being read, was non-contemplative and therefore a precondition of abstract poems that require only to be contemplated, since effectively a species of word art. The five books in this project represent different stages in John O'Loughlin's development of a non-readerly, or contemplative, style of poetic composition, and have also been published separately under

the headings 'Contemplations' (1985), 'Supercontemplations' (1993) and 'Ultracontemplations' (1994), the first of these being in three books and therefore containing the greater percentage of the material now available in one volume, as the collected contemplative abstract poems.

I Can't Tell You Hillary Frank, 2004 While fighting with his best friend and college roommate over a girl, Jake says something he regrets, then begins communicating only through notes and letters, but when he wants to tell the girl how he really feels about her, his silence and penchant for puns get in the way.

The Dimensions of Physical Fitness Edwin A. Fleishman,Paul Thomas,Philip Munroe,1961
Six factors were identified to account for performance on the thirty performance tests. Originally, nine factors were hypothesized, and the possibility of still additional factors was allowed. This finding is important in its own right since it provides for a simpler way of describing performance in these areas of physical proficiency: Explosive Strength, Extent Flexibility, Dynamic Flexibility, Gross Body Equilibrium, Balance-Visual Cues, and Speed of Limb Movement.
