Hacking Google Maps and Google Earth Martin C. Brown,2006-07-24 500 pages of jaw-dropping hacks, mods and customizations, including creating mashups with data from other sources such as Flickr, building a space station tracker, and hacking Maps with Firefox PiggyBank. This work shows readers how to find any golf course in the world, hack maps with statistical data, build interactive maps, and more.

How to Safety Rate Red Light Cameras Donald S. Sawicki,2011-05-01 Many communities use red light cameras as a revenue source, then claim it is for safety. Some places go so far as to shorten the yellow duration forcing more drivers to run the light (more revenue, less safety and harder braking). To make matters worse many states use an unrealistic (fast) driver reaction time to determine yellow light duration. A way to safety rate a traffic stoplight (including red light cameras) is to determine potential maximum driver braking. Using a realistic driver reaction time, a realistic (objective and predictable) braking number can be determined. Using a braking g's scale (deceleration compared to acceleration due to gravity), braking g's can be used to determine (braking) safety and comparing other stoplights. How To Safety Rate Red Light Cameras explains how to determine braking g's using speed limit, yellow light duration, road grade (incline), and stop bar to clear point (usually intersection) distance. Includes a discussion of factors involved, mathematical model and proof, equations, and braking scale levels. Lookup tables (English and Metric) provided for quickly estimating braking g's. Are Stoplights in your community safe -- this book will show you how to objectively and clearly rate a stoplight.

Red Light Camera Systems Cynthia Munoz,2015 Red light running is one of the major causes of crashes, deaths, and injuries at signalised intersections. The Federal Highway Administration (FHWA) and National Highway Traffic Safety Administration (NHTSA) support a comprehensive approach to intersection safety that incorporates engineering, education, and enforcement countermeasures to prevent red light running and improve intersection safety. Red light cameras can be a very effective countermeasure to prevent red light running. There are a number of studies that indicate reduction in crashes at signalised intersections due to red light cameras. The fundamental objective of the research in this book is to determine the effectiveness of RLC systems in reducing crashes. A description of all project efforts is described in this book.

Future Access Enablers for Ubiquitous and Intelligent Infrastructures Vladimir Atanasovski,Alberto Leon-Garcia,2015-12-29 This book constitutes the proceedings of the First International Conference on Future Access Enablers for Ubiquitous and Intelligent Infrastructures, FABULOUS 2015, held in Ohrid, Republic of Macedonia, in September 2015. Eyes Everywhere Aaron Doyle,Randy Lippert,David Lyon,2013-03-01 In many countries camera surveillance has become commonplace, and ordinary citizens and consumers are increasingly aware that they are under surveillance in everyday life. Camera surveillance is typically perceived as the archetype of contemporary surveillance technologies and processes. While there is sometimes fierce debate about their introduction, many others take the cameras for granted or even applaud their deployment. Yet what the presence of surveillance cameras actually achieves is still very much in question. International evidence shows that they have very little effect in deterring crime and in 'making people feel safer', but they do serve to place certain groups under greater official scrutiny and to extend the reach of today's 'surveillance society'. Eyes Everywhere provides the first international perspective on the development of camera surveillance. It scrutinizes the quiet but massive expansion of camera surveillance around the world in recent years, focusing especially on Canada, the UK and the USA but also including less-debated but important contexts such as Brazil, China, Japan, Mexico, South Africa and Turkey. Containing both broad overviews and illuminating case-studies, including cameras in taxi-cabs and at mega-events such as the Olympics, the book offers a valuable oversight on the status of camera surveillance in the second decade of the twenty-first century. The book will be fascinating reading for students and scholars of camera surveillance as well as policy makers and practitioners from the police, chambers of commerce, private security firms and privacy- and data-protection agencies.

Police on Camera Bryce Clayton Newell,2020-10-18 Police body-worn cameras (BWCs) are at the cutting edge of policing. They have sparked important conversations about the proper role and extent of police in society and about balancing security, oversight, accountability, privacy, and surveillance in our modern world. Police on Camera address the conceptual and empirical evidence surrounding the use of BWCs by police officers in societies around the globe, offering a variety of differing opinions from experts in the field. The book provides the reader with conceptual and empirical analyses of the role and impact of police body-worn cameras in society. These analyses are complimented by invited commentaries designed to open up dialogue and generate debate on these important social issues. The book offers informed, critical commentary to the ongoing debates about the implications that BWCs have for society in various parts of the world, with special attention to issues of police accountability and discretion, privacy, and surveillance. This book is designed to be accessible to a broad audience, and is targeted at scholars and students of surveillance, law and policy, and the police, as well as policymakers and others interested in how surveillance technologies are impacting our modern world and criminal justice institutions.

Automated Enforcement for Speeding and Red Light Running Kimberly A. Eccles,2012 The goal of this research was to find out which automated enforcement programs have been successful and what contributed to their success, as well as which programs have been unsuccessful and to draw lessons from their experiences. This was accomplished through a comprehensive assessment of automated speed and red light running enforcement activity in the United States and Canada, which led to the development of guidelines to assist agencies in implementing and operating successful automated enforcement programs. Over 350 jurisdictions with current or past automated enforcement programs were contacted by survey and phone as part of the assessment. In addition to the survey, an extensive literature review was conducted to determine the effect of the programs, cost effectiveness, and resource requirements, and to get the perspective of the public.

Selling Snake Oil Mo Lidsky,2019-10-24 Selling Snake Oil is sensational confrontation with the masterminds of the world's most innovative and astonishing investment frauds. This book offers a glimpse into the ingenuity, psychology and strategies of history's most effective swindlers, who successfully duped US presidents, savvy CEOs, seasoned investment professionals, and everyday investors like you and me. The cases are as real as the victims that lay in their waste. But most important are the eternal lessons they left behind. This book is as entertaining as it is actionable, with every story offering readers another layer of protection in their efforts to ward off the charlatans of the future. You will travel from the shores of Antigua to the farms of Ontario, from the Eiffel Tower to small-town America and into the sanctuaries of Wall Street. The stories will carry you across the broadest gamut of geographic and

historical narratives. All of which, with the singular objective of helping you avoid the next snake-oil salesman.

Success in Toronto : a Guide for New Immigrants Hirantha Nandasena,2011-04-07 This book gives solutions to real life problems new immigrants face. It has a lot of information about many aspects of life.
