Translation, Travel, Migration Loredana Polezzi,2016-04-08 The connection between travel and translation is often evoked in contemporary critical theory, both practices seen as metaphors of mobility and flux linked to globalized 'post-modern' society. Travel is a multiple activity, encompassing temporary and voluntary displacement, repeated movement, exile, economic migration, diaspora. Places of origin are often plural and unstable, in spite of the enduring appeal of traditional labels such as 'mother country' or 'patrie'. The multiple interfaces between translation, travel and migration are the focus of all contributions in this special issue. Starting from different points of view, and using a variety of methodologies, the authors raise fundamental questions about the way in which we perceive the link between language, national or ethnic identity, and individual voice. Topics range from the interaction between travel, travel narratives and translation in early English representations of China, to the special role played by interpreters in mediating the first contact between a literate and a non-literate culture; from the multiple functions and audiences addressed by contemporary Romani literature and its translation, to the political as well a cultural implications of translating popular music across the Bosphorus. A number of the articles focus on detailed textual analysis, covering the intersection between exile, self-translation and translingualism in the work of Manuel Puig; the uses and limitations of translation in the works of migrant authors; or the impact on figurations of Europe of experimental work embracing polylingualism. Collectively, these contributions also underline the importance of a closer examination of our assumptions about who the translators and the interpreters are, and what roles they play in our society.

Translating Travel Loredana Polezzi,2017-03-02 Translating Travel examines the relationship between travel writing and translation, asking what happens when books travel beyond the narrow confines of one genre, one literary system and one culture. The volume takes as its starting point the marginal position of contemporary Italian travel writing in the Italian literary system, and proposes a comparative reading of originals and translations designed to highlight the varying reception of texts in different cultures. Two main themes in the book are the affinity between the representations produced by travel and the practices of translation, and the complex links between travel writing and genres such as ethnography, journalism, autobiography and fiction. Individual chapters are devoted to Italian travellers' accounts of Tibet and their English translations; the hybridization of journalism and travel writing in the works of Oriana Fallaci; Italo Calvino's sublimation of travel writing in the stylized fiction of *Le città invisibili*; and the complex network of literary references which marked the reception of Claudio Magris's *Danubio* in different cultures.

It is specifically developed for urgent situations where a traveler may become separated from a group or otherwise find themselves in unfamiliar territory--whether hostile or friendly. It contains strong visual language graphics to help communicate current situation, request help, locate shelter, get first aid assistance and acquire basic needs, as well as images to assist in identifying danger, navigating terrain, finding transport and locating communication devices to regain familiar contact--all by pointing to pictures. It also contains personal safety reference guidelines for what to do to be inconspicuous and improve personal conditions in the initial moments of a confusing situation.

Travel Narratives in Translation, 1750-1830 Alison Martin, Susan Pickford, 2013-05-07 This book examines how non-fictional travel accounts were rewritten, reshaped, and reoriented in translation between 1750 and 1850, a period that saw a sudden surge in the genre's popularity. It explores how these translations played a vital role in the transmission and circulation of knowledge about foreign peoples, lands, and customs in the Enlightenment and Romantic periods. The collection makes an important contribution to travel writing studies by looking beyond metaphors of mobility and cultural transfer to focus specifically on what happens to travelogues in translation. Chapters range from discussing essential differences between the original and translated text to relations between authors and translators, from intra-European narratives of Grand Tour travel to scientific voyages round the world, and from established male travellers and translators to their historically less visible female counterparts. Drawing on European travel writing in English, French, German, Spanish, and Portuguese, the book charts how travelogues were selected for translation; how they were reworked to acquire new aesthetic, political, or gendered identities; and how they sometimes acquired a radically different character and content to meet the needs and expectations of an emergent international readership. The contributors address aesthetic, political, and gendered aspects of travel writing in translation, drawing productively on other disciplines and research areas that encompass aesthetics, the history of science, literary geography, and the history of the book.

Across the Lines Michael Cronin, 2000 Across the Lines is a study of how language mediates experience across cultures with regard to travel. The study is partly based on the books of various travel writers with no grasp of a foreign tongue & their perceptions using interpreters & guides.

Travel and Translation in the Early Modern Period Carmine Di Biase, 2006 The relationship between travel and translation might seem obvious at first, but to study it in earnest is to discover that it is at once intriguing and elusive. Of course, travelers translate in order to make sense of their new surroundings; sometimes they must translate in order to put food on the table. The relationship between these two human compulsions, however, goes much deeper than this. What gets translated, it seems, is not merely the written or the spoken word, but the very identity of the traveler. These seventeen essays--which treat not only such well-known figures as Martin Luther, Erasmus, Shakespeare, and Milton, but also such lesser known figures as Konrad Grünenberg, Leo Africanus, and Garcilaso de la Vega--constitute the first survey of how this relationship manifests itself in the early modern period. As such, it should be of interest both to scholars who are studying theories of translation and to those who are studying hodoeporics, or travel and the literature of travel.

Translating Ethiopia Renato Tomei, 2019-01-17 The book represents the first in a series on travel writing, translation, tourism, and advertising. It spans biblical narratives, religious missions, scientific explorations, and the lesser known travels in Ethiopia (Prester John, Queen of Sheba, the Ark of the Covenant, the Blue Nile, Maq'dala, Lalibela and Gondar). In particular, stemming from the cultural turn in translation studies and geography, this work adopts a comparative and diachronic perspective on colonial and postcolonial descriptions of space and place, examining the variation in intertextual citation and re-writing, from early accounts to contemporary travelogues, marking a persistence in stereotyping.

Pragmatics at Work María Pilar Navarro Errasti, Rosa Lorés Sanz, Silvia Murillo Ornat, 2004 This volume is a collection of eight articles on the general topic of translation. The common element running through them all is the analysis of samples of tourist literature and their translations, from a pragmatic point of view. The languages concerned are mainly English and Spanish, but examples of German and French texts are also included. The theoretical approaches are multifaceted. Relevance theory, systemic-functional linguistics and discourse analysis are some of the theoretical standpoints taken as a background. The book covers phenomena as varied as translation quality assessment, audience design and perlocutionary effects, dealing also with more specific features like thematic structure, inference and propositional meaning, discourse markers and grammatical metaphor in order to provide a wide range of analyses for the specialised reader.

Translating Italy for the Eighteenth Century Mirella Agorni, 2014-04-08 Translating Italy in the Eighteenth Century offers a historical analysis of the role played by translation in that complex redefinition of women's writing that was taking place in Britain in the second half of the eighteenth century. It investigates the ways in which women writers managed to appropriate images of Italy and adapt them to their own purposes in a period which covers the 'moral turn' in women's writing in the 1740s and foreshadows the Romantic interest in Italy at the end of the century. A brief survey of translations produced by women in the period 1730-1799 provides an overview of the genres favoured by women translators, such as the moral novel, sentimental play and a type of conduct literature of a distinctively 'proto-feminist' character. Elizabeth Carter's translation of Francesco Algarotti's *Il Newtonianesimo per le Dame* (1739) is one of the best examples of the latter kind of texts. A close reading of the English translation indicates a 'proto-feminist' exploitation of the myth of Italian women's cultural prestige. Another genre increasingly accessible to women, namely travel writing, confirms this female interest in Italy. Female travellers who visited Italy in the second half of the century, such as Hester Piozzi, observed the state of women's education through the lenses provided by Carter. Piozzi's image of Italy, a paradoxical mixture of imagination and realistic observation, became a powerful symbolic source, which enabled the fictional image of a modern, relatively egalitarian British society to take shape.

Flights Olga Tokarczuk, 2018-08-14 WINNER OF THE NOBEL PRIZE IN LITERATURE WINNER OF THE MAN BOOKER INTERNATIONAL PRIZE NATIONAL BOOK AWARD FINALIST FOR TRANSLATED LITERATURE A visionary work of fiction by A writer on the level of W. G. Sebald (Annie Proulx) A magnificent writer. — Svetlana Alexievich, Nobel Prize-winning author of *Secondhand Time* A beautifully fragmented look at man's longing for permanence.... Ambitious and complex. — Washington Post From the incomparably original Polish writer Olga Tokarczuk, *Flights* interweaves reflections on travel with an in-depth exploration of the human body, broaching life, death, motion, and migration. Chopin's heart is carried back to Warsaw in secret by his adoring sister. A woman must return to her native Poland in order to poison her terminally ill high school sweetheart, and a young man slowly descends into madness when his wife and child mysteriously vanish during a vacation and just as suddenly reappear. Through these brilliantly imagined characters and stories, interwoven with haunting, playful, and revelatory meditations, *Flights* explores what it means to be a traveler, a wanderer, a

body in motion not only through space but through time. Where are you from? Where are you coming in from? Where are you going? we call to the traveler. Enchanting, unsettling, and wholly original, *Flights* is a master storyteller's answer.

Translation and Geography Federico Italiano, 2016-06-03 Translation and Geography investigates how translation has radically shaped the way the West has mapped the world. Groundbreaking in its approach and relevant across a range of disciplines from translation studies and comparative literature to geography and history, this book makes a compelling case for a form of cultural translation that reframes the contributions of language-based translation analysis. Focusing on the different yet intertwined translation processes involved in the development of the Western spatial imaginary, Federico Italiano examines a series of literary works and their translations across languages, media, and epochs, encompassing: poems travel narratives nautical fictions colonial discourse exilic visions. Drawing on case studies and readings ranging from the Latin of the Middle Ages to twentieth-century Latin American poetry, this is key reading for translation theory and comparative/world literature courses.

Eating & Drinking in Spain and Portugal Andy Herbach, 2019-04-05 Even people who speak passable Spanish or Portuguese can have trouble reading a menu. Although you may know that the word for fish in Spanish is *pescado*, you might be surprised to discover *kokotxas* (fish glands, a Basque specialty) on a menu. If you think of it in terms of English, can you imagine a foreign traveler who speaks basic English and knows the word for meat, understanding what prime rib is? Or a porterhouse? Veggie platter, anyone? Buffalo wings? Sloppy joes? There are always strange and unusual items on a menu. With this guide tucked inconspicuously in your pocket, you'll know where to dine and boldly go where you once feared to enter. This guide not only helps you find your way around a menu written in Spanish or Portuguese, but also will help you find great places to eat the unique and wonderful food of Spain and Portugal. *Eating & Drinking in Spain and Portugal* (fourth edition) includes: - A comprehensive Spanish-menu translator - A comprehensive Portuguese-menu translator - A great (and down-to-earth) restaurant guide Including Barcelona, Madrid, Seville, and Lisbon - Advice on restaurant etiquette - Short pronunciation guides - Opinions on everything food-related, from what to eat to where to get it...

Travel Writings Matsuo Basho, 2020-04-20 The travel writings of Matsuo Bashō are of enormous literary importance, and so it is a joy to see them collected in this compact volume, in translations of exemplary elegance, faithfulness, and accessibility. The annotations are especially valuable: they show a solid grasp of the author's life, work, and times, and provide rich and detailed background information about allusions to Chinese and Japanese classics. Along with the high quality of the translations themselves, this thorough commentary makes the book a significant scholarly resource and will help readers appreciate the density and delicacy of Bashō's writing. A very welcome addition to the English-language literature on one of the central poets of the Japanese tradition. —David B. Lurie, Columbia University
