Travel and Travail Mary C. Fuller, 2019 Popular English travel guides from the sixteenth and seventeenth centuries asserted that women who wandered too far afield were invariably suspicious, dishonest, and unchaste. As the essays in *Travel and Travail* reveal, however, early modern women did travel, often quite extensively, with no diminution of their moral fiber. Female travelers were also frequently represented on the English stage and in other creative works, both as a reproach to the ban on female travel and as a reflection of historical women's travel, whether intentional or not. *Travel and Travail* conclusively refutes the notion of female travel in the early modern era as an absent presence. The first part of the volume offers analyses of female travelers (often recently widowed or accompanied by their husbands), the practicalities of female travel, and how women were thought to experience foreign places. The second part turns to literature, including discussions of roving women in Shakespeare, Margaret Cavendish, and Thomas Heywood. Whether historical actors or fictional characters, women figured in the wider world of the global Renaissance, not simply in the hearth and home.

Keywords for Travel Writing Studies Charles Forsdick, Zoë Kinsley, Kathryn Walchester, 2019-04-22 *Keywords for Travel Writing Studies* draws on the notion of the 'keyword' as initially elaborated by Raymond Williams in his seminal 1976 text *Keywords: A Vocabulary of Culture and Society* to present 100 concepts central to the study of travel writing as a literary form. Each entry in the volume is around 1,000 words, the style more essayistic than encyclopaedic, with contributors reflecting on their chosen keyword from a variety of disciplinary perspectives. The emphasis on travelogues and other cultural representations of mobility drawn from a range of national and linguistic traditions ensures that the volume has a comparative dimension; the aim is to give an overview of each term in its historical and theoretical complexity, providing readers with a clear sense of how the selected words are essential to a critical understanding of travel writing. Each entry is complemented by an annotated bibliography of five essential items suggesting further reading.

The Grand Tour Mireille Pavane, 2019-09-20 Lucia and Charley are the products of Old New York's ruling elite. Prestige. Wealth. Tradition. Scandal. No one is immune. Not Charley, reckless, blithe courtier of trouble, heiress to the Montrose fortune, who has been conspicuously absent for over a year without a word of truth or explanation. Nor Lucia, as docile a daughter as any parent could wish for, carrying secrets of her own, slowly awakening to a yearning for things beyond obeisance to the established order, as deeply ingrained as Old New York's fascination for, and fear of, scandal. Sailing into the summer of 1929, on the eve of the Black Tuesday Wall Street Crash and a world on the brink of change, Charley and Lucia must keep their wits sharp about them in the pleasure capitals of the Continent and on the Nile to steer their futures away from peril. There are men and temptations to resist, intrigues and mysteries to untangle, secrets to hide, lies to weave, and jewel thieves to outsmart while, back home in New York and on the Exchange, the world rumbles and thunders ominously by. More hangs in the balance than the frivolities of the Jazz Age, the glitzy parties in London and the lures of Paris, automobile races, leisurely flirtations on the French Riviera, opulent Egyptian nights, and the catching of a brilliant matrimonial prize. This Grand Tour could prove to be the making of two young women, a prelude to freedom and independence, to saving and building an empire... Or perhaps merely an invitation to rebellion, scandal and unmitigated disaster. Running away or running towards? Tick-tock. This is Part Two of the three part *Voyage Out* series.
