Memory Road Trip Krista Marson, 2021-09-07 **MEMORY ROAD TRIP** is a collection of travel stories ranging from the sublime to the surreal as recounted by a former travel agent who saw the world on the cheap. The journey down memory road is a heartfelt excursion into the past that takes armchair explorers on an odyssey of life, love, and loneliness. The circuitous path is full of philosophical nooks and crannies, and many stories get told from the bottom of a well. Many of Krista's stories speak to the angst that simmers inside all of us as we confront the many absurdities that exist in this world. Her passion for nature, art, history, and architecture gush across the page, along with her contagious curiosity in life and her pragmatic acceptance of death. **MEMORY ROAD TRIP** is not only an adventurous journey to certain parts of the globe, but it is also an introspective and witty journey to

the mysterious self. For as large as the world is, it has grown infinitely smaller, yet currently exists relatively out of reach. Travel, for the moment, is safer done mentally these days, so now's the time to go on a MEMORY ROAD TRIP with someone who knows the way.

Desert Memories Ariel Dorfman, 2011-06-15 The Norte Grande of Chile, the world's driest desert, had "engendered contemporary Chile, everything that was good about it, everything that was dreadful," writes Ariel Dorfman in his brilliant exploration of one of the least known and most exotic corners of the globe. For 10,000 years the desert had been mined for silver, iron, and copper, but it was the 19th-century discovery of nitrate that transformed the country into a modern state and forced the desert's colonization. The mines' riches generated mansions and oligarchs in Chile's more temperate region - and terrible inequalities throughout the country. The Norte Grande also gave birth to the first Chilean democratic and socialist movements, nurturing every major political figure of modern Chile from Salvador Allende to Augusto Pinochet. In this richly layered personal memoir, illustrated with the author's own photographs, Dorfman sets out to explore the origins of contemporary Chile - and, along the way, seek out his wife's European ancestors who came years ago to Chile as part of the nitrate rush. And, most poignantly, he looks for traces of his friend and fellow 1960s activist, Freddy Taberna,

executed by a firing squad in a remote Pinochet death camp.
