Avoid Market Loss with Trust Deed Investing Casimir J. Domaszewicz,2002-08-28 Avoid Market Loss with Trust Deed Investing provides an alternate investment media to investors, that are disillusioned by the present unstable stock market. It provides detailed information on how to put money to work in a relatively safe investment with a high return. By using the guides presented, double-digit returns with security can be achieved. Investors can do this by using Trust Deeds, secured by a borrower's house, apartment building, or other real estate property. Additionally, the investor doesn't have to be a resident of the state where the real estate security is located. In this book are the methods for evaluating Trust Deeds, avoiding dangerous loans, expected interest rates, problems to expect and how to minimize their impact, as well as other procedures that should be followed to ensure a safe return. This book has been written specifically for investing in Trust Deeds in California. It can be applied to other states that use Trust Deeds. The basic principles can be applied to those states that use mortgages.
