**Tumbler** Brand Gamblin,2010-04-27 Libby Carter wanted to get away from it all, so she took a job mining asteroids as far out into the inky blackness as possible. Cave-in rescues, planetary collisions, and other mishaps keep her new family fighting to stay alive.

**Managing in a Time of Great Change** Peter Drucker,2012-10-02 'It is not so very difficult to predict the future. It is only pointless...what is always far more important are fundamental changes that happened though no one predicted them or could possible have predicted them.' (quote taken from this book) It is these unpredictable and irreversible changes from the past, and their effect on the role of the executive which Peter Drucker examines in his latest book. The management of change is a subject which has been, undoubtedly, the principal preoccupation of management thinkers in the 1990s. Peter Drucker, the guru's guru, brings together a group of his own original essays and interviews on this vitally important topic. As ever, he provides invaluable food for thought for all executives and students of business and management.

**The Tumbler** Peter Bowen,2012-03-13 “Truly mysterious—informed by Western legend, steeped in Indian superstition . . . Riding with Du Pré is some kind of enchantment” (The New York Times Book Review). A rumor circulates around academic circles that the long-lost journals of Meriwether Lewis are in the possession of a hard-bitten Montana fiddler named Gabriel Du Pré. A few years ago, the Métis Indian led a documentary film crew down the Missouri River to commemorate the bicentennial of the famous Lewis and Clark expedition, but he won't say whether or not he has the journals. Only Benetsee, Du Pré's mysterious spiritual guide, has any idea where the journals are, and only a fool would try to make Benetsee talk when he doesn't feel like it. It's quite possible, though, that billionaire Markham Millbank is a fool. His money cannot persuade Du Pré, and so he begins to consider other forms of pressure. When two of Du Pré's friends are kidnapped, the fiddler faces a tough decision: Hand over the journal or risk innocent lives to keep it out of the wrong hands . . . The Tumbler is the 11th book in The Montana Mysteries Featuring Gabriel Du Pré series, but you may enjoy reading the series in any order.

**The Tumbler** Dennis F. Paulaha,2014-08-14 THE TUMBLER shows that the things we work for should be at least as valuable to us as the things we have to give up to attain them, because the time and money spent to achieve something cannot be used to do or buy something else; once used, it is gone. The second chapter shows that the pursuit of perfection can prevent success. There is a time to stop trying to create a perfect painting, a perfect book, or a perfect body and to go on with our work and our lives. The failure to do so can put our success, and even our lives, at risk.
