Turku (Finland) - Wink Travel Guide Wink Travel Wink Travel Guide,2019-06-14 Turku is the oldest city and former capital of Finland. It was settled during the 13th century, making it one of the only few - and by far the largest - medieval cities in Finland. Turku is the cradle of Finnish culture, since over the years it has played an important role as the gateway to Finland for international influence. Nowadays Turku is a vivid city with clusters of maritime and medical business. Bisecting Turku city center, the River Aura is the heart and soul of the city: this is where Turku was born, and a large part of city life - museums, sights, restaurants and cafes - is still concentrated on the riverside. The river banks form a national urban park allowing for a pleasant stroll from the Turku Cathedral to the Turku Castle. Wink Travel Guides introduce you to the best world travel destinations, in a clear and concise way, illustrated by photos.

Transforming the Workforce for Children Birth Through Age 8 National Research Council,Institute of Medicine,Board on Children, Youth, and Families,Committee on the Science of Children Birth to Age 8: Deepening and Broadening the Foundation for Success,2015-07-23 Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. Transforming the Workforce for Children Birth Through Age 8 explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. Transforming the Workforce for Children Birth Through Age 8 offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

Culture Management Lukasz Wroblewski,2017-01-30 Dr Lukasz Wroblewski's book Culture Management: Strategy and Marketing Aspects clearly recognises that the pressures on the cultural sector in the 21st Century are greater than ever before. Based on robust academic research within a practical industry context, this book addresses all the key issues related to marketing strategy and planning for the cultural industries. It will be an invaluable tool for managers, policy-makers and all those working in the creative and cultural world, and will help them to develop sound strategies for the future. Dr Kim Lehman Tasmanian School of Business and Economics, University of Tasmania Dr Wroblewski's book explains clearly what has changed to make the use of business models necessary, even in organizations which might have resisted in the past. Globalization has resulted in a population which understands and appreciates art and culture created in other countries. While it might be agreed that this is beneficial for society, it means that cultural arbitrators within a country no longer have the authority to dictate what is accepted as culture. Managers now understand that to gain the support of the public they must explain the benefits of consuming their cultural product. Dr Bonita M. Kolb Professor Emeritus of Lycoming College in Pennsylvania A thoughtful and penetrating analysis of culture management addressing marketing strategies and cultural institutions. An important 'must read' book for those involved in this exciting sector. Prof Adrian Payne University of UNSW Business School, University of New South Wales

Computer Safety, Reliability, and Security Alexander Romanovsky,Elena Troubitsyna,Illir Gashi,Erwin Schoitsch,Friedemann Bitsch,2019-09-02 This book constitutes the proceedings of the Workshops held in conjunction with SAFECOMP 2019, 38th International Conference on Computer Safety, Reliability and Security, in September 2019 in Turku, Finland. The workshops included in this volume are: ASSURE 2019: 7th International Workshop on Assurance Cases for Software-Intensive Systems DECSoS 2019: 14th ERCIM/EWICS/ARTEMIS Workshop on Dependable Smart Embedded and Cyber-Physical Systems and Systems-of-Systems SASSUR 2019: 8th International Workshop on Next Generation of System Assurance Approaches for Safety-Critical Systems STRIVE 2019: Second International Workshop on Safety, securiTy, and pRivacy In automotiVe systEmS WAISE 2019: Second International Workshop on Artificial Intelligence Safety Engineering

Designing Motherhood Michelle Millar Fisher,Amber Winick,2021-09-14 More than eighty designs--iconic, archaic, quotidian, and taboo--that have defined the arc of human reproduction. While birth often brings great joy, making babies is a knotty enterprise. The designed objects that surround us when it comes to menstruation, birth control, conception, pregnancy, childbirth, and early motherhood vary as oddly, messily, and dramatically as the stereotypes suggest. This smart, image-rich, fashion-forward, and design-driven book explores more than eighty designs--iconic, conceptual, archaic, titillating, emotionally charged, or just plain strange--that have defined the relationships between people and babies during the past century. Each object tells a story. In striking images and engaging text, Designing Motherhood unfolds the compelling design histories and real-world uses of the objects that shape our reproductive experiences. The authors investigate the baby carrier, from the Snugli to BabyBjörn, and the (re)discovery of the varied traditions of baby wearing; the tie-waist skirt, famously worn by a pregnant Lucille Ball on I Love Lucy, and essential for camouflaging and slowly normalizing a public pregnancy; the home pregnancy kit, and its threat to the authority of male gynecologists; and more. Memorable images--including historical ads, found photos, and drawings--illustrate the crucial role design and material culture plays throughout the arc of human reproduction. The book features a prologue by Erica Chidi and a foreword by Alexandra Lange. Contributors Luz Argueta-Vogel, Zara Arshad, Nefertiti Austin, Juliana Rowen Barton, Lindsey Beal, Thomas Beatie, Caitlin Beach, Maricela Becerra, Joan E. Biren, Megan Brandow-Faller, Khiara M. Bridges, Heather DeWolf Bowser, Sophie Cavoulacos, Meegan Daigler, Anna Dhody, Christine Dodson, Henrike Dreier, Adam Dubrowski, Michelle Millar Fisher, Claire Dion Fletcher, Tekara Gainey, Lucy Gallun, Angela Garbes, Judy S. Gelles, Shoshana Batya Greenwald, Robert D. Hicks, Porsche Holland, Andrea Homer-Macdonald, Alexis Hope, Malika Kashyap, Karen Kleiman, Natalie Lira, Devorah L Marrus, Jessica Martucci, Sascha Mayer, Betsy Joslyn Mitchell, Ginger Mitchell, Mark Mitchell, Aidan O'Connor, Lauren Downing Peters, Nicole Pihema, Alice Rawsthorn, Helen Barchilon Redman, Airyka Rockefeller, Julie Rodelli, Raphaela Rosella, Loretta J. Ross, Ofelia Pérez Ruiz, Hannah Ryan, Karin Satrom, Tae Smith, Orkan Telhan, Stephanie Tillman, Sandra Oyarzo Torres, Malika Verma, Erin Weisbart, Deb Willis, Carmen Winant, Brendan Winick, Flaura Koplin Winston

Online Hate and Harmful Content Teo Keipi,Matti Näsi,Atte Oksanen,Pekka Räsänen,2016-12-08 Over the past few decades, various types of hate material have caused increasing concern. Today, the scope of hate is wider than ever, as easy and often-anonymous access to an enormous amount of online content has opened the Internet up to both use and abuse. By providing possibilities for inexpensive and instantaneous access without ties to geographic location or a user identification system, the Internet has permitted hate groups and individuals espousing hate to transmit their ideas to a worldwide audience. Online Hate and Harmful Content focuses on the role of potentially harmful online content, particularly among young people. This focus is explored through two approaches: firstly, the commonality of online hate through cross-national survey statistics. This includes a discussion of the various implications of online hate for young people in terms of, for example, subjective wellbeing, trust, self-image and social relationships. Secondly, the book examines theoretical frameworks from the fields of sociology, social psychology and criminology that are useful for understanding online behaviour and online victimisation. Limitations of past theory are assessed and complemented with a novel theoretical model linking past work to the online environment as it exists today. An important and timely volume in this ever-changing digital age, this book is suitable for graduates and undergraduates interested in the fields of Internet and new media studies, social psychology and criminology. The analyses and findings of the book are also particularly relevant to practitioners and policy-makers working in the areas of Internet regulation, crime prevention, child protection and social work/youth work.

Computer Methods in Biomechanics and Biomedical Engineering J. Middleton,M. L. Jones,G. N. Pande,1996-03-18 These papers are concerned with new advances and novel solutions in the areas of biofluids, image-guided surgery, tissue engineering and cardiovascular mechanics, implant analysis, soft tissue mechanics, bone remodeling and motion analysis. The contents also feature a special section on dental materials, dental adhesives and orthodontic mechanics. This edition contains many examples, tables and figures, and together with the many references, provides the reader with invaluable information on the latest theoretical developments and applications.

High Resolution Imaging in Microscopy and Ophthalmology Josef F. Bille,2019-08-13 This open access book provides a comprehensive overview of the application of the newest laser and microscope/ophthalmoscope technology in the field of high resolution imaging in microscopy and ophthalmology. Starting by describing High-Resolution 3D Light Microscopy with STED and RESOLFT, the book goes on to cover retinal and anterior segment imaging and image-guided treatment and also discusses the development of adaptive optics in vision science and ophthalmology. Using an interdisciplinary approach, the reader will learn about the latest developments and most up to date technology in the field and how these translate to a medical setting. High Resolution Imaging in Microscopy and Ophthalmology – New Frontiers in Biomedical Optics has been written by leading experts in the field and offers insights on engineering, biology, and medicine, thus being a valuable addition for scientists, engineers, and clinicians with technical and medical interest who would like to understand the equipment, the applications and the medical/biological background. Lastly, this book is dedicated to the memory of Dr. Gerhard Zinser, co-founder of Heidelberg Engineering GmbH, a scientist, a husband, a brother, a colleague, and a friend.

Advances in Information Systems Development: Anders G. Nilsson,Remigijus Gustas,Gregory Wojtkowski,Wita Wojtkowski,Stanislaw Wrycza,Joze Zupancic,2010-07-15 The two-volume Advances in Information Systems Development: Bridging the Gap between Academia and Industry constitutes the collected proceedings of the Fourteenth International Conference on Information Systems Development: Methods and Tools, Theory and Practice – ISD’2005 Conference. The focus of these volumes is to examine the exchange of ideas between academia and industry and aims to explore new solutions. The proceedings follow the seven conference tracks highlighted at the Conference: Co-design of Business and IT; Communication and Methods; Human Values of Information Technology; Service Development and IT; Requirements Engineering in the IS Life-Cycle; Semantic Web Approaches and Applications; and Management and IT.

Decision Support Systems for Sustainable Development Gregory E. Kersten,Zbigniew Mikolajuk,Anthony Gar-On Yeh,2007-05-08 In recent years, much work has been done in formulating and clarifying the concept of sustainable development and related theoretical and research issues. Now, the challenge has shifted to designing and stimulating processes of effective planning and decision-making, at all levels of human activity, in such a way as to achieve local and global sustainable development. Information technology can help a great deal in achieving sustainable development by providing well-designed and useful tools for decision makers. One such tool is the decision support system, or DSS. This book explores the area of DSS in the context of sustainable development. As DSS is a very new technique, especially in the developing world, this book will serve as a reference text, primarily for managers, government officials, and information professionals in developing countries. It covers the concept of sustainable development, defines DSS and how it can be used in the planning and management of sustainable development, and examines the state of the art in DSS use. Other interested readers will include students, teachers, and analysts in information sciences; DSS designers, developers, and implementors; and international development agencies.

Entrepreneurial learning for TVET institutions Lindner, Johannes,UNESCO International Centre for Technical and Vocational Education and Training,2020-12-31

Rick Steves Snapshot St. Petersburg, Helsinki & Tallinn Rick Steves,Cameron Hewitt,2018-10-30 You can count on Rick Steves to tell you what you really need to know when traveling in St. Petersburg, Helsinki, and Tallinn. In this compact guide, Rick Steves covers the essential spots of each city, including the Hermitage, the Church of the Savior on Spilled Blood, Linnanmäki (a classic amusement park), and Toompea Castle. Take a day trip to the lavish palace at Peterhof, stroll through Kaivopuisto Park in Helsinki, or see the best of contemporary Estonian art at Tallinn's Kumu Art Museum. You'll get Rick's firsthand advice on the best sights, eating, sleeping, and nightlife, and the maps and self-guided tours will ensure you make the most of your experience. More than just reviews and directions, a Rick Steves Snapshot guide is a tour guide in your pocket. Rick Steves Snapshot guides consist of excerpted chapters from Rick Steves European country guidebooks. Snapshot guides are a great choice for travelers visiting a specific city or region, rather than multiple European destinations. These slim guides offer all of Rick's up-to-date advice on what sights are worth your time and money. They include good-value hotel and restaurant recommendations, with no introductory information (such as overall trip planning, when to go, and travel practicalities).
