Frictions in Cosmopolitan Mobilities Rodanthi Tzanelli,2021-04-30 This groundbreaking book investigates the clash between a desire for unfettered mobility and the prevalence of inequality, exploring how this generates frictions in everyday life and how it challenges the ideal of just cosmopolitanism. Reading fictional and popular cultural texts against real global contexts, it develops an 'aesthetics of justice' that does not advocate cosmopolitan mobility at the expense of care and hospitality but rather interrogates their divorce in neoliberal contexts.

Behind Frenemy Lines Amber Tichenor,2021-11-30 Females are the recipients of rivalrous behaviors from other women, consistently. It's what people frequently call a "cat-fight," or "women being dramatic" it isn't pretty. It can be raw, ugly, confusing, and very painful. Female rivalry is boundless. As a result, there is a hunger for this topic, to better understand it, to curb the behavior, to dive into the misconceptions and reality that it's not just a cat-fight. It's much more than that. It's a silent epidemic. Women who are recipients of this type of behavior often don't speak about their experience until it is behind them, or near to being over. Silent in the fact that there is often awareness by others about the behavior, but traditionally it's not dealt with until after the fact, if ever. *Behind Frenemy Lines* is a practical guide to help women find their peace, explore how they trust, establish true connections and know they are not alone when they are experiencing these types of behaviors. By sharing personal and relatable stories, *Behind Frenemy Lines* addresses the raw ugliness of female rivalry head on. It offers tips with structure to educate and help women connect with one another about the seriousness of the phenomenon so that they can forge relationships that help them be unstoppable, together.

Studies in Hellenistic Religions Luther H. Martin,2018-02-26 This selection of essays by Luther Martin brings together studies from throughout his career—both early as well as more recent—in the various areas of Graeco-Roman religions, including mystery cults, Judaism, Christianity, and Gnosticism. It is hoped that these studies, which represent spatial, communal, and cognitive approaches to the study of ancient religions might be of interest to those concerned with the structures and dynamics of religions past in general, as well as to scholars who might, with more recent historical research, confirm, evaluate, extend, or refute the hypotheses offered here, for that is the way scholars work and by which scholarship proceeds.

Friendship and Happiness Tim Delaney, Tim Madigan, 2017-08-11 This philosophical and sociological look at friendship and happiness begins with a review of Aristotle's three categories of friendship—friends of utility, friends of pleasure and friends of the good. Modern variations—casual friends, close friends, best friends—are described, along with the growing phenomena of virtual friendships and cyber socialization in the Internet age. Inspired in part by Bertrand Russell's *The Conquest of Happiness*, the authors propose that conquering unhappiness is key to achieving the self-satisfaction Russell called *zest* and Aristotle called *eudaimonia* or thriving by our own efforts.

Living Sustainably A. Whitney Sanford, 2017-06-16 In light of concerns about food and human health, fraying social ties, economic uncertainty, and rampant consumerism, some people are foregoing a hurried, distracted existence and embracing a mindful way of living. Intentional residential communities across the United States are seeking the freedom to craft their own societies and live out Mohandas K. Gandhi's vision of democracy based on the values of nonviolence, self-sufficiency, equality, and voluntary simplicity. Over the course of four years, A. Whitney Sanford visited ecovillages, cohousing communities, and Catholic worker houses and farms where individuals are striving to be the change they wish to see in the world. In this book, she reveals the solutions that these communities have devised for sustainable living while highlighting the specific choices and adaptations that they have made to accommodate local context and geography. She examines their methods of reviving and adapting traditional agrarian skills, testing alternate building materials for their homes, and developing local governments that balance group needs and individual autonomy. *Living Sustainably* is a teachable testament to the idea that new cultures based on justice and sustainability are attainable in many ways and in countless homes and communities. Sanford's engaging and insightful work demonstrates that citizens can make a conscious effort to subsist in a more balanced, harmonious world.

Dictionaries: A Very Short Introduction Lynda Mugglestone, 2011-08-18 Do, or should, dictionaries control language? How do they treat language change, both now and in the past? Which words do dictionaries leave out – and on what grounds? Dictionaries are far more than works which list the words and meanings of a language. In this *Very Short Introduction* Lynda Mugglestone shows that all dictionaries are partial and all are selective. They are

human products, reflecting the dominant social and cultural assumptions of the time in which they were written. Dictionaries exist then not only as works which seek to document language, but also as cultural documents that are connected to the world in which they were produced. Exploring common beliefs about dictionaries, providing glimpses of behind the scenes dictionary makers at work, and confronting the problems of how a word is to be defined, Mugglestone shows that dictionaries are always, and inevitably, more than the crafting of a simple list of words. Concluding with a look at the range of modern dictionaries and transformations, from online dictionaries such as *urbandictionary.com* or *wictionary* to *txt-spk* and slang, she reveals the controversial nature of the debates about communication and language, showing that only in written and spoken English does the language of dictionaries exist in full. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Dehydrated Karen Schatzline, 2015-09-01 Unearth an oasis of life in the presence of God.

Kids Gone Wild Joel Best, Kathleen A. Bogle, 2014-08-29 But why do stories like these find such media traffic, exploiting parents' worst fears? How do these rumors get started, and how do they travel around the country and even across the globe? In *Kids Gone Wild*, best-selling authors Joel Best and Kathleen A. Bogle use these stories about the fears of the growing sexualization of childhood to explore what we know about contemporary legends and how both traditional media and the internet perpetuate these rumors while, at times, debating their authenticity. Best and Bogle describe the process by which such stories spread, trace how and to where they have moved, and track how they can morph as they travel from one medium to another. Ultimately, they find that our society's view of kids raging out of control has drastic and unforeseen consequences, fueling the debate on sex education and affecting policy decisions on everything from the availability of the morning after pill to who is included on sex offender registries.

Cognitive Linguistics and Humor Research Geert Brône, Kurt Feyaerts, Tony Veale, 2015-06-16 To what extent can Cognitive Linguistics benefit from the systematic study of a creative phenomenon like humor? Although the authors in this volume approach this question from different perspectives, they share the profound belief that humorous data may provide a unique insight into the complex interplay of quantitative and qualitative aspects of meaning construction.

Click and Kin May Friedman, Silvia Schultermandl, 2016-05-12 Click and Kin is an interdisciplinary examination of how our increasingly mobile and networked age is changing the experience of kinship and connection. Focusing on how identity formation is affected by quick media such as instant messaging, video chat, and social networks, the contributors to this collection use ethnographic and textual analyses, as well as autobiographical approaches, to demonstrate the ways in which the ability to communicate across national boundaries is transforming how we grow together and apart as families, communities, and nations. The essays in Click and Kin span the globe, examining transnational connections that touch in the United States, Canada, Mexico, India, Pakistan, and elsewhere. Together, they offer a unique reflection on the intersection of new media, identity politics, and kinship in the twenty-first century.

Producing Masculinity Michele White, 2019-03-01 Thoughtful, witty, and illuminating, in this book Michele White explores the ways normative masculinity is associated with computers and the Internet and is a commonly enacted online gender practice. Through close readings and a series of case studies that range from wedding forums to

men's makeup video tutorials, White considers the ways masculinities are structured through people's collaborations and contestations over the establishment of empowered positions, including debates about such key terms and positions as "the nice guy," "nerd," "bro," and "groom." She asserts that cultural notions of masculinity are reliant on figurations of women and femininity, and explores cultural conceptions of masculinity and the association of normative white heterosexual masculinity with men and women. A counterpart to her earlier book, *Producing Women*, White has crafted an excellent primer for scholars of gender, media, and Internet studies.
