**Food Safety for Farmers Markets: A Guide to
Enhancing Safety of Local Foods** Judy A.
Harrison,2017-10-20 This book describes practices
used on farms and in farmers markets selling foods
directly to consumers in U.S. and international
markets. It identifies hazards associated with
those practices that could put consumers at
increased risk for foodborne illness. It also
provides tools for identifying hazards on farms
and in markets and guidance for establishing food-
safe markets. The local food movement, inspired by
initiatives such as the USDA's "Know Your Farmer,
Know Your Food"; "Farm to School"; "Farm to Pre-

school”; and “The People’s Garden”, is sweeping the country. Nowhere is this interest more evident than at farmers markets. The number of farmers markets has increased almost 400% since the early 1990s, with over 8,600 farmers markets listed in the USDA’s market directory in 2016. Many of the customers for local markets are senior adults, people who may have health concerns, and mothers with young children shopping for foods they perceive to be healthier and safer than those available in grocery stores. This means that many of the customers may be in population groups that are most at risk for foodborne illness and the serious complications that can result. In surveys, however, farmers selling directly to consumers self-reported practices that could increase risk for foodborne illnesses. These included use of raw manure as fertilizer without appropriate waiting periods between application and harvest, as outlined in the National Organic Program, a lack of sanitation training for farm workers handling produce, a lack of proper cleaning and sanitizing of surfaces that come in contact with produce, and use of untested surface water for rinsing produce before taking it to market. Surveys of market managers found that many had limited experience and most had no food safety plans for their markets. Observational studies in markets have corroborated self-reported practices that could increase foodborne illness risks, including lack of handwashing, lack of access to well-maintained toilet and handwashing facilities, use of materials that cannot be cleaned and sanitized appropriately, and lack of temperature control for

foods that must have time and temperature controlled for safety. These potential food safety risks are not only seen in U.S. farmers markets, but also have been identified in international markets. This book is unique in that it provides evidence-based information about food safety hazards and potential risks associated with farmers markets. It presents an overview of farm and market practices and offers guidance for enhancing food safety on farms and in markets for educators, farmers, producers, vendors and market managers. Dr. Judy A. Harrison is a Professor in the Department of Foods and Nutrition at the University of Georgia (UGA) where she has been named a Walter Bernard Hill Fellow for distinguished achievement in public service and outreach. Serving as a food safety specialist for UGA Cooperative Extension, she has provided 25 years of food safety education for a variety of audiences across the food system.

U.S. farmers markets, 2000 Tim Payne,2002

Local Food Systems; Concepts, Impacts, and Issues Steve Martinez,2010-11 This comprehensive overview of local food systems explores

alternative definitions of local food, estimates market size and reach, describes the characteristics of local consumers and producers, and examines early indications of the economic and health impacts of local food systems. Defining *local* based on marketing arrangements, such as farmers selling directly to consumers at regional farmers' markets or to schools, is well recognized. Statistics suggest that local food markets account for a small, but growing, share of U.S. agricultural production. For smaller farms, direct marketing to consumers accounts for a higher percentage of their sales than for larger farms. Charts and tables.

Increasing Food Recovery from Farmers Markets

Charlene C. Price, 1999

Los Angeles's Original Farmers Market David Hamlin, Brett Arena, 2009 The original Farmers Market at Third Street and Fairfax Avenue in Los Angeles has been at the center of its city's history for 75 years. Farmers Market led Los Angeles out of the Great Depression, drew tourists from around the world, and became the most popular attraction in Southern California. It is Los Angeles's beloved grocery store, its town square, its favorite dining room and den, Hollywood's best friend, and one of the city's most delightfully eccentric citizens. From its uniquely quirky beginnings to its contemporary stature as the coolest place in town, Farmers Market has a history rich in stories and is alive with character, integrity, and tradition.

Hudson River Valley Farms Joanne Michaels, 2009-07-15 Meet your local farmer!

Published for the 400th anniversary of Henry Hudson's September 1609 journey along the river that today bears his name, this fascinating illustrated portrait celebrates the local farms—and farmers—in one of the country's most scenic and storied regions, once known as the Breadbasket of America. Hudson River Valley Farms brings to life the renaissance of food producers who have developed the region as a source of artisanal cheeses, grass-fed beef, and first-rate organic fruits and vegetables. Stunning photography and short, evocative essays take you on a rare, behind-the-scenes journey to forty-four farms from Westchester County to the Capital District of Albany, and include the colorful maverick entrepreneurs behind the striking scenery. The book also includes a directory of nearly 100 local farmers' markets, directions to the featured farms, and an introduction by the region's popular U.S. Congressman, Maurice Hinchey.

Farmers Markets of America Robert Sommer, 1980

The Role of Local and Regional Food Systems in U.S. Farm Policy Renée Johnson, 2016 This report provides background information on many of the type of operations engaged in the U.S. local and regional food system. A wide range of farm businesses are involved in local foods, such as direct-to-consumer marketing, farmers' markets, farm-to-school programs, community-supported agriculture,⁶ community gardens, school gardens, food hubs and market aggregators, kitchen incubators, and mobile slaughter units. This report also highlights some of the available

resources within existing federal programs administered by USDA and other agencies.

Farmer Jane Temra Costa,2010 Farmer Jane profiles thirty women in the sustainable food industry, describing their agriculture and business models and illustrating the amazing changes they are making in how we connect with food. These advocates for creating a more holistic and nurturing food and agriculture system also answer questions on starting a community-supported agriculture (CSA) program, how to get involved in policy at local and national levels, and how to address the different types of renewable energy and finance them.

Farmers' Market Desserts Jennie Schacht,2010-04-28 The number of U.S. farmers' markets has grown by 20% over the past three years to nearly 5,300 nationwide. This collection of tempting desserts inspired by those markets and the farmers who share their produce there satisfies the sustainable shopper's sweet tooth with more than 50 recipes for tarts, crisps, cupcakes, puddings, and more. Discover classics like Deep Dish Sour Cherry Pie and new interpretations like Tangerine-sicle Ice Cream. Featuring seasonality charts, farmer journal tips, and dazzling color photography to teach and inspire, Farmers' Market Desserts is the perfect gift for bakers, lovers of local produce, and all who share in the delights of the farmers' market.

Guide for Farmers Markets on Military Installations United States Department of Agriculture,2017-09-19 We are pleased to present this Guide for Farmers Markets on Military

Installations, a comprehensive online manual that explains how to successfully establish and operate farmers markets on military bases. This manual is the result of a collaboration between the U.S. Department of Defense's (DoD) Healthy Base Initiative (HBI) and the U.S. Department of Agriculture's (USDA) Agricultural Marketing Service (AMS), in partnership with Wholesome Wave. The DoD launched the Healthy Base Initiative (HBI) - a demonstration project at 14 military installations that works to improve nutritional choices, increase physical activity, reduce obesity, and decrease tobacco use -on March 18, 2013. In support of the theme of Healthy Eating, HBI has helped increase the availability of quality wholesome food and agricultural products on military bases by establishing farmers markets.

Black, White, and Green Alison Hope

Alkon, 2012-11-01 Farmers markets are much more than places to buy produce. According to advocates for sustainable food systems, they are also places to vote with your fork for environmental protection, vibrant communities, and strong local economies. Farmers markets have become essential to the movement for food-system reform and are a shining example of a growing green economy where consumers can shop their way to social change. *Black, White, and Green* brings new energy to this topic by exploring dimensions of race and class as they relate to farmers markets and the green economy. With a focus on two Bay Area markets--one in the primarily white neighborhood of North Berkeley, and the other in largely black West Oakland--Alison Hope Alkon investigates the

possibilities for social and environmental change embodied by farmers markets and the green economy. Drawing on ethnographic and historical sources, Alkon describes the meanings that farmers market managers, vendors, and consumers attribute to the buying and selling of local organic food, and the ways that those meanings are raced and classed. She mobilizes this research to understand how the green economy fosters visions of social change that are compatible with economic growth while marginalizing those that are not. *Black, White, and Green* is one of the first books to carefully theorize the green economy, to examine the racial dynamics of food politics, and to approach issues of food access from an environmental-justice perspective. In a practical sense, Alkon offers an empathetic critique of a newly popular strategy for social change, highlighting both its strengths and limitations.
