Internet Domain Names, Trademarks and Free Speech Jacqueline D. Lipton,2010-01-01 As the first form of truly rivalrous digital property, Internet domain names raise many challenges for law and policy makers. Analyzing the ways in which past disputes have been decided by courts and arbitrators, Jacqueline Lipton offers a comprehensive, global examination of the legal, regulatory and policy issues that will shape the future of Internet domain name governance. This comprehensive examination of domain name disputes involving personal names and political and cultural issues sheds light on the need to balance trademark policy, free speech and other pressing interests such as privacy and personality rights. The author stresses that because domain names can only be registered to one person at a time, they create problems of scarcity not raised by other forms of digital assets. Also discussed are the kinds of conflicts over domain names that are not effectively addressed by existing regulations, as well as possible regulatory reforms. Internet Domain Names, Trademarks and Free Speech brings pivotal new insights to bear in intellectual property and free speech discourse. As such, policymakers, scholars and students of intellectual property, cyber law, computer law, constitutional law, and e-commerce law will find it a valuable resource.

Social Problems Alex Thio,Jim Taylor,2011-02-11 Authored by leading educators and authorities on the subject, this comprehensive text provides a multiplicity of approaches to social problems. They range from the positivist, objectivist, and scientific to the constructionist, subjectivist, and humanist. They deal with a large variety of social problems including various aspects of inequality, deviance, institutions, and globalization. All of these approaches are presented in 16 fast-paced, easily readable chapters divided into five parts. Each chapter opens with an engaging vignette, to be followed by discussions of the nature and extent of a social problem, the conflicting views of the problem, various sociological theories of the problem, global aspects of the problem, social policies for dealing with the problem, and sociological insights on the problem that students can use to enhance their lives. Each chapter concludes with a summary, critical thinking questions, and internet resources.
