Split Second Stories Viki King, 2017-06-18
Stunningly beautifully written. Poignant, Funny. You won't look at life the same way after seeing it through the eyes of Viki King. This is a master writer. Every word is tightly placed. So economical as if every word weighs something and she 's packing for a trip up to the summit. She carves out a world in a short paragraph. King is the ultimate observer with no judgment. Whoever she sees, whatever they are up to, she looks at them with love. You'll remember the feeling you're left with after reading each story. The pay-off is immediate. Some of these stories are two lines, some just a paragraph and always a feel good take away. Read them in a minute, they will stay with you a long time.

How To Watch Television Ethan Thompson, Jason Mittell, 2013-09-16 Examines social and cultural phenomena through the lens of different television shows We all have opinions about the television shows we watch, but television criticism is about much more than simply evaluating the merits of a particular show and deeming it 'good' or 'bad.' Rather, criticism uses the close examination of a television program to explore that program's cultural significance, creative strategies, and

its place in a broader social context. *How to Watch Television* brings together forty original essays from today's leading scholars on television culture, writing about the programs they care (and think) the most about. Each essay focuses on a particular television show, demonstrating one way to read the program and, through it, our media culture. The essays model how to practice media criticism in accessible language, providing critical insights through analysis—suggesting a way of looking at TV that students and interested viewers might emulate. The contributors discuss a wide range of television programs past and present, covering many formats and genres, spanning fiction and non-fiction, broadcast and cable, providing a broad representation of the programs that are likely to be covered in a media studies course. While the book primarily focuses on American television, important programs with international origins and transnational circulation are also covered. Addressing television series from the medium's earliest days to contemporary online transformations of television, *How to Watch Television* is designed to engender classroom discussion among television critics of all backgrounds.

Girls' Adventure Stories of Long Ago Viki

Holmes,2017-05-04 The most recent collection of poetry from Viki Holmes and the recipient of a Hong Kong Arts Development Council grant, *Girls' Adventure Stories of Long Ago* revisits hero-stories, both male and female, through characters from legend, folktale and television: Akkadian moon priestesses and Greek nymphs take their places alongside characters from Saturday morning cartoons and cult sci-fi classics. Taking as its inspiration Joseph Campbell's *Hero With a Thousand Faces*, this collection transports the reader through landscapes British, European and Asian; through stories ancient and modern. Myth and media collide in an evocation of love, loss and identity that presents the reader with a hero's journey viewed through a contemporary feminist lens. Viki Holmes has been living and writing in Hong Kong since 2005. She is the author of *miss moon's class* (Chameleon Press, 2008), and co-editor of the anthology of world women's writing *Not A Muse* (Haven Books, 2009).

The SimHebrew Bible Jonathan Orr-Stav, Bob MacDonald, 2021-10-25 The SimHebrew Bible makes reading, searching, and learning the Hebrew Bible much easier for non-Hebrew readers. SimHebrew is an exact simulation of the fully spelled Hebrew text of the Bible. Readers of the Latin character set who are not versed in the square text will find both ease and pleasure in learning the Bible in its original tongue without any of the

difficulties encountered when facing the traditional right-to-left text. The technique gives a true insight into the linguistic features of the Hebrew – in particular, its economy of language, wordplay, repetition of the same word in different contexts, and above all, the root structure of its words. This Bible also allows easy searching in both Hebrew and English including a full glossary and links to a corresponding online concordance. The combination makes both the Hebrew language and the translation decisions in the English guide fully transparent.

Pop Empires S. Heijin Lee, Monika Mehta, Robert Ji-Song Ku, 2019-07-31 At the start of the twenty-first century challenges to the global hegemony of U.S. culture are more apparent than ever. Two of the contenders vying for the hearts, minds, bandwidths, and pocketbooks of the world's consumers of culture (principally, popular culture) are India and South Korea. "Bollywood" and "Hallyu" are increasingly competing with "Hollywood"—either replacing it or filling a void in places where it never held sway. This critical multidisciplinary anthology places the mediascapes of India (the site of Bollywood), South Korea (fountainhead of Hallyu, aka the Korean Wave), and the United States (the site of Hollywood) in comparative dialogue to explore the transnational flows of technology, capital, and labor. It asks what sorts of political and economic shifts have occurred to make India and South Korea important alternative nodes of techno-cultural production, consumption, and contestation. By adopting comparative perspectives and mobile methodologies

and linking popular culture to the industries that produce it as well as the industries it supports, Pop Empires connects films, music, television serials, stardom, and fandom to nation-building, diasporic identity formation, and transnational capital and labor. Additionally, via the juxtaposition of Bollywood and Hallyu, as not only synecdoches of national affiliation but also discursive case studies, the contributors examine how popular culture intersects with race, gender, and empire in relation to the global movement of peoples, goods, and ideas.
