Power and Resistance in an African Society Les Switzer,1993
Imagine a history of the United States written from the perspective of the African-American community. Imagine that the story of this community is told not only from the viewpoint of its leaders--the middle-class elites--but also from the viewpoint of sharecroppers, industrial workers and others living on the margins of American culture. And finally, imagine that this is not only about political and economic relations but also about race, class, gender, and religious relations, about the lived experiences of one community that both reflect and represent fundamental issues of power and resistance in an entire society. This is what Les Switzer has tried to do with his book *Power and Resistance in an African Society*. Scholars who have read it suggest that this is

the first attempt to write a history of South Africa from the perspective of one subordinate community in South Africa. The result is a transformed history from below. The names, dates, events, and issues of conventional textbook history lose their meaning in the process of reconstructing a history that seeks to free the African from the domain of South Africa's ruling culture. The book also offers a unique contribution to African studies in sub-Saharan Africa, because it explores the material and symbolic manifestations of power and resistance in a pre-colonial, colonial, and post-colonial setting. The Ciskei region in the eastern Cape was selected as the case study. This was the historic zone of conflict between European and Bantu-speaking African in southern Africa--the Cape-Xhosa wars in this region lasting a century. The contemporary African nationalist movement in South Africa first emerged in a variety of organizational forms in the Ciskei during the 1870s and 1880s. The strategy of petitionary protest probably persisted longer here than anywhere else in South Africa in the post-colonial period, but popular resistance found a variety of windows outside organized African politics. The Ciskei, for example, was a focal point of rural resistance in the 1920s and early 1930s and again between the early 1940s and early 1960s. The gap between rural and urban dissidents in South Africa, moreover, was first bridged in the Ciskei and its environs during the 1952 Defiance Campaign. Finally, the Ciskei's segregated African reserve, where economic conditions were judged to be most serious, emerged as a primary site of struggle on South Africa's periphery during the 1970s and 1980s. The focus of this study is on the Xhosa-speaking peoples who lived in the Ciskei region in the first century after conquest. To highlight the linkages between regional and national issues, the Xhosa in the Ciskei are examined in the context of unfolding events in the Cape Colony and in the unified settler state of South Africa after 1910. A distinct plurality of voices would be formed in the complex interplay between color, consciousness, and class, as this

community sought space for itself within the domain of South Africa's ruling culture.

Allan Maclean, Jacobite General Mary Beacock

Fryer, 1996-07-26 Born on the Isle of Mull to an impoverished lair of the clan Maclean, young Allan fought his first battle — for Bonnie Prince Charlie at Culloden — from a sense of deep conviction and family loyalty. He fled into exile when the Stuart cause was lost. In Holland he became a mercenary, and after amnesty was granted for Jacobites, he joined the British army serving in North America during the Seven Years' War, and again during the American Revolution. He was at Quebec on New Year's Eve 1775 when the city was attacked by Benedict Arnold, and shortly thereafter become the military governor of Montreal. Between the two wars, when the army was reduced and he was on half-pay, Maclean was preoccupied with finding ways to meet the expenses he incurred while on active service. He made himself useful to politicians and office-holders who had access to public funds or who could recommend him for promotions. One who helped him was Lauchlin Maclean, an ambitious politician who was probably the notorious Junius, who wrote vicious letters to newspapers attacking the government, but was never unmasked. This fast-paced and intriguing book gives a penetrating insight into the challenges facing a man who chose a military career during the tumultuous period of the eighteenth century.
