- 🔍 The Weather Obsession Lawrie Zion, 2018-02-08 We have come a long way since the days when weather information could only be found in the back pages of newspapers. The Weather Obsession takes the temperature of modern weather media and investigates how it has fuelled our fascination with all things climatic. Weather information now pervades everything from our mobile devices to online news and social media, while the Bureau of Meteorology is a daily destination for millions of us. What has made weather so much more than a mere talking point? What happens when this data becomes big business? And what is at stake when it comes to how the media frames our understanding of the relationship between extreme weather and climate change? The Weather Obsession lifts the lid on our insatiable appetite for meteorological media and shows that while we might not have stopped worrying about the forecast, almost all of us have learnt to love the BOM.

- 🔍 The Weather Machine Andrew Blum, 2019-06-25 From the acclaimed author of Tubes, a lively and surprising tour through the global network that predicts our weather, the people behind it, and what it reveals about our climate and our planet The weather is the foundation of our daily lives. It’s a staple of small talk, the app on our smartphones, and often the first thing we check each morning. Yet, behind all these humble interactions is the largest and most elaborate piece of infrastructure human beings have ever constructed—a triumph of both science and global cooperation. But what is the weather machine, and who created it? In The Weather Machine, Andrew Blum takes readers on a fascinating journey through the people, places, and tools of forecasting, exploring how the weather went from something we simply observed to something we could actually predict. As he travels across the planet, he visits some of the oldest and most important weather stations and watches the newest satellites blast off. He explores the dogged efforts of forecasters to create a supercomputer model of the atmosphere, while trying to grasp the ongoing relevance of TV weather forecasters. In the increasingly unpredictable world of climate change, correctly understanding the weather is vital. Written with the sharp wit and infectious curiosity Andrew Blum is known for, The Weather Machine pulls back the curtain on a universal part of our everyday lives, illuminating our changing relationships with technology, the planet, and our global community.

The reassuring rhythms of her life as a wife and mother begin to falter as her obsession with disaster psychology and people preparing for the end of the world grows. - 🔍 Managing Today’s News Media Samir Husni, Debora Halpern Wenger, Hank Price, 2015-07-29 The business of journalism is in the midst of massive change. Managing Today’s News Media: Audience First offers practical solutions on how to cope with and adapt to the evolving media landscape. News media experts Samir Husni, Debora Halpern Wenger, and Hank Price introduce a forward-looking framework for understanding why change is occurring and what it means to the business of journalism. Central to this new paradigm is a focus on the audience. The authors introduce The 4Cs Strategy to describe how customers, control, choice, and change are all part of a strategy for successful media organizations. Every chapter in the book relates to one or more of these four key principles: Customer – Each platform must offer a unique experience to the customer. Choice – The audience has more options than ever, and news organizations must work harder to

BE THE PREFERRED CHOICE. CONTROL – SHARING POWER AND CONTROL WITH THE AUDIENCE IS NOW A NECESSARY PART OF RUNNING A SUCCESSFUL NEWS OPERATION. CHANGE – COMPANIES CAN MANAGE CHANGE THROUGH ADAPTATION. REAL-WORLD CASE STUDIES, IMPORTANT THEORETICAL GROUNDING, AND A FOCUS ON UNDERSTANDING RATHER THAN RESISTING THE CUSTOMER’S DESIRE FOR CHOICE AND CONTROL MAKE THIS AN UNBEATABLE RESOURCE FOR STUDENTS AND MANAGERS ALIKE WHO WANT TO SUCCEED IN THIS CHANGED MEDIA BUSINESS LANDSCAPE.

📖 THIS BUSINESS OF TELEVISION HOWARD J. BLUMENTHAL, OLIVER R. GOODENOUGH, 2006 THIS PUBLICATION REFLECTS THE CHANGES IN TELEVISION, BOTH DOMESTICALLY AND INTERNATIONALLY AND IS A USEFUL GUIDE TO THE LEGAL, ECONOMIC, AND PRODUCTION ASPECTS OF THE INDUSTRY.

📖 THE WEATHER OF THE FUTURE HEIDI CULLEN, 2011-07-19 Dr. Heidi Cullen, one of the world’s foremost climatologists and environmental journalists, offers a new way of viewing the climate-change phenomenon, not as some future event but as something happening right now in our own backyard. In this groundbreaking, provocative work, Dr. Cullen combines the latest scientific research with state-of-the-art climate-model projections to create climate-change scenarios for seven of the most at-risk locations around the globe. From the Central Valley of California, where coming droughts will jeopardize the entire state’s water supply, to New York City, whose infrastructure is extremely vulnerable to even a relatively weak Category 3 hurricane, to Greenland, where warmer temperatures will give access to mineral wealth buried beneath ice sheets for millennia, Cullen illustrates how, if left unabated, climate change will transform every corner of the world by midcentury—and no two regions will be affected in quite the same way.
