The Way We Eat Now Bee Wilson, 2019-05-07 An award-winning food writer takes us on a global tour of what the world eats--and shows us how we can change it for the better. Food is one of life's great joys. So why has eating become such a source of anxiety and confusion? Bee Wilson shows that in two generations the world has undergone a massive shift from traditional, limited diets to more globalized ways of eating, from bubble tea to quinoa, from Soylent to meal kits. Paradoxically, our diets are getting healthier and less healthy at the same time. For some, there has never been a happier food era than today: a time of unusual herbs, farmers' markets, and internet recipe swaps. Yet modern food also kills--diabetes and heart disease are on the rise everywhere on earth. This is a book about the good, the terrible, and the avocado toast. A riveting exploration of the hidden forces behind what we eat, *The Way We Eat Now* explains how this food revolution has transformed our bodies, our social lives, and the world we live in.

Should We Eat Meat? Vaclav Smil,2013-03-18 Meat eating is often a contentious subject, whether considering the technical, ethical, environmental, political, or health-related aspects of production and consumption. This book is a wide-ranging and interdisciplinary examination and critique of meat consumption by humans, throughout their evolution and around the world. Setting the scene with a chapter on meat's role in

human evolution and its growing influence during the development of agricultural practices, the book goes on to examine modern production systems, their efficiencies, outputs, and impacts. The major global trends of meat consumption are described in order to find out what part its consumption plays in changing modern diets in countries around the world. The heart of the book addresses the consequences of the massive carnivory of western diets, looking at the inefficiencies of production and at the huge impacts on land, water, and the atmosphere. Health impacts are also covered, both positive and negative. In conclusion, the author looks forward at his vision of “rational meat eating”, where environmental and health impacts are reduced, animals are treated more humanely, and alternative sources of protein make a higher contribution. *Should We Eat Meat?* is not an ideological tract for or against carnivorousness but rather a careful evaluation of meat's roles in human diets and the environmental and health consequences of its production and consumption. It will be of interest to a wide readership including professionals and academics in food and agricultural production, human health and nutrition, environmental science, and regulatory and policy making bodies around the world.

Why We Eat What We Eat Raymond Sokolov, 1993-04-05 When Christopher Columbus stumbled upon America in 1492, the Italians had no pasta with tomato sauce, the Chinese had no spicy Szechuan cuisine, and the Aztecs in Mexico were eating tacos filled with live insects instead of beef. In this lively, always surprising history of the world through a gourmet's eyes, Raymond Sokolov explains how all of us -- Europeans, Americans, Africans, and Asians -- came to eat what we eat today. He journeys with the reader to far-flung ports

of the former Spanish empire in search of the points where the menus of two hemispheres merged. In the process he shows that our idea of traditional cuisine in contrast to today's inventive new dishes ignores the food revolution that has been going on for the last 500 years. *Why We Eat What We Eat* is an exploration of the astonishing changes in the world's tastes that let us partake in a delightful, and edifying, feast for the mind.--Publisher's description.

We Are What We Eat Donna R. Gabaccia, 2009-07-01 Ghulam Bombaywala sells bagels in Houston. Demetrios dishes up pizza in Connecticut. The Wangs serve tacos in Los Angeles. How ethnicity has influenced American eating habits—and thus, the make-up and direction of the American cultural mainstream—is the story told in We Are What We Eat. It is a complex tale of ethnic mingling and borrowing, of entrepreneurship and connoisseurship, of food as a social and political symbol and weapon—and a thoroughly entertaining history of our culinary tradition of multiculturalism. The story of successive generations of Americans experimenting with their new neighbors' foods highlights the marketplace as an important arena for defining and expressing ethnic identities and relationships. We Are What We Eat follows the fortunes of dozens of enterprising immigrant cooks and grocers, street hawkers and restaurateurs who have cultivated and changed the tastes of native-born Americans from the seventeenth century to the present. It also tells of the mass corporate production of foods like spaghetti, bagels, corn chips, and salsa, obliterating their ethnic identities. The book draws a surprisingly peaceful picture of American ethnic relations, in which “Americanized” foods like Spaghetti-Os happily coexist with painstakingly pure ethnic dishes and creative hybrids. Donna Gabaccia invites us to consider: If we are what we eat, who are we? Americans' multi-ethnic eating is a constant reminder of how widespread, and mutually enjoyable, ethnic interaction has sometimes been in the United States. Amid our wrangling over immigration and tribal differences, it reveals that on a basic level, in the way we sustain life and seek pleasure, we are all

multicultural.

How We Eat Paco Underhill, 2022-01-04 An “eye-opening” (Kirkus Reviews) and timely exploration of how our food—from where it’s grown to how we buy it—is in the midst of a transformation, showing how this is our chance to do better, for us, for our children, and for our planet, from a global expert on consumer behavior and bestselling author of *Why We Buy*. Our food system is undergoing a total transformation that impacts how we produce, get, and consume our food. Market researcher and bestselling author Paco Underhill—hailed by the *San Francisco Chronicle* as “a Sherlock Holmes for retailers”—reveals where our eating and drinking lives are heading in his “delectable” (Michael Gross, *New York Times* bestselling author of *740 Park*) book, *How We Eat*. In this upbeat, hopeful, and witty approach, *How We Eat* reveals the future of food in surprising ways. Go to the heart of New York City where a popular farmer’s market signifies how the city is getting country-fied, or to cool Brooklyn neighborhoods with rooftop farms. Explore the dreaded supermarket parking lot as the hub of innovation for grocery stores’ futures, where they can grow their own food and host community events. Learn how marijuana farmers, who have been using artificial light to grow a crop for years, have developed a playbook so mainstream merchants like Walmart and farmers across the world can grow food in an uncertain future. Paco Underhill is the expert behind the most prominent brands, consumer habits, and market trends and the author of multiple highly acclaimed books, including *Why We Buy*. In *How We Eat*, he shows how food intersects with every major battle we face today, from political and environmental to economic and racial, and invites you to the market to discover more.
