When I Stop Talking, You'll Know I'm Dead Jerry Weintraub,2010-04-07 Here is the story of Jerry Weintraub: the self-made, Brooklyn-born, Bronx-raised impresario, Hollywood producer, legendary deal maker, and friend of politicians and stars. No matter where nature has placed him--the club rooms of Brooklyn, the Mafia dives of New York's Lower East Side, the wilds of Alaska, or the hills of Hollywood--he has found a way to put on a show and sell tickets at the door. All life was a theater and I wanted to put it up on a stage, he writes. I wanted to set the world under a marquee that read: 'Jerry Weintraub Presents.' In *When I Stop Talking, You'll Know I'm Dead*, we follow Weintraub from his first great success at age twenty-six with Elvis Presley, whom he took on the road with the help of Colonel Tom Parker; to the immortal days with Sinatra and Rat Pack glory; to his crowning hits as a movie producer, starting with Robert Altman and Nashville, continuing with *Oh, God!*, *The Karate Kid* movies, and *Diner*, among others, and summing with Steven Soderbergh and *Ocean's Eleven*, *Twelve*, and *Thirteen*. Along the way, we'll watch as Jerry moves from the poker tables of Palm Springs (the games went on for days), to the power rooms of Hollywood, to the halls of the White House, to Red Square in Moscow and the Great Palace in Beijing-all the while counseling potentates, poets, and kings, with clients and confidants like George Clooney, Bruce Willis, George H. W. Bush, Armand Hammer, Brad Pitt, Matt Damon, Bob Dylan, Led Zeppelin, John Denver, Bobby Fischer . . .well, the list goes on forever. And of course, the story is not yet over . . .as the old-timers say, The best is yet to come. As Weintraub says, *When I stop talking, you'll know I'm dead*. With wit, wisdom, and the cool confidence that has colored his remarkable career, Jerry chronicles a quintessentially American journey, one marked by luck, love, and improvisation. The stories he tells and the lessons we learn are essential, not just for those who love movies and music, but for businessmen, entrepreneurs, artists . . . everyone.

105 Hikes in and Around Southwestern British Columbia Stephen Hui, 2018-05-22 The all-new, expanded follow-up to southwestern British Columbia's best-selling hiking guidebook—now featuring trails on the islands and northern Washington. For nearly fifty years, David and Mary Macaree's iconic 103 Hikes in Southwestern British Columbia has been the province's most popular and most trusted hiking guide, with more than 100,000 copies sold to date. Author Stephen Hui carries on the Macarees' legacy in 105 Hikes in and around Southwestern British Columbia—an all-new, expanded follow-up inspired by their beloved classic. With an additional selection of trails on the Gulf Islands and in Washington's North Cascades, options for hiking with children, and rainy day recommendations, 105 Hikes covers a wider area and wider range of abilities than its predecessor. Like the Macarees, Hui provides detailed information about how to get to each trailhead (including transit options, where available), distance and elevation gains, estimated hiking times, and points of natural or historical interest. But he also includes all-new features such as an at-a-glance summary of all the hikes in the book; tips for hiking safely and ethically; clear, topographical color maps; a rating system for hike quality and difficulty; Indigenous place names where appropriate; and shorter or longer options for every outing.

Overexposure Chad Sayers, 2021-10 A beautiful collection of photographs and personal reflections on the life of professional ski mountaineer, surfer, climber, and all around adventurer, Chad Sayers. At the age of 18, Chad Sayers chooses to pursue a perilous existence in the world of professional freeskiing. Immediately successful, he rides high on a train of celebrity, sponsorship, travel, and freedom. But living the dream is, in reality, a tiring treadmill of daily risk that eventually sets him adrift from family, friends, lovers -- even himself. As injuries and emotional traumas pile up, his identity fractures into a hall of mirrors -- the flickering images of athlete, son, brother, traveller, and seeker veiling the reality of a man running blindly from heartbreak and physical debilitation. Then one day, in the mountains of France, hanging by a finger above certain death, he sees the one reflection that finally scares him straight: a man who doesn't care. To heal this severed connection to reality and the constant pain he lives with, Sayers quits skiing and turns to his other passions of travel, surfing, and photography. In *Overexposure*, some of the world's greatest outdoor photographers contribute to this engaging story in order to parse not only the high-stakes gambits required for a pro skier to stay in the spotlight, but also the grandeur of the stage on which these play out.

Making Meaning Out of Mountains Mark C. J. Stoddart, 2012 Mountains bear the imprint of human activity. Deep scars from logging and surface mining crosscut the landmarks of sports and recreation - national parks and lookout areas, ski slopes and lodges. Although the environmental effects of extractive industries are well known, skiing is more likely to bring to mind images of luxury, wealth, and health. In *Making Meaning out of Mountains*, Mark Stoddart draws on interviews, field observations, and media analysis to explore how the ski industry in British Columbia has helped transform mountain environments and, in turn, how skiing has come to be inscribed with multiple, often conflicted meanings informed by power struggles rooted in race, class, and gender. Corporate leaders promote the skiing industry as sustainable development, while environmentalists and some First Nations argue that skiing sacrifices wildlife habitats and traditional lands to tourism and corporate gain. Skiers themselves appreciate the opportunity to commune with nature but are concerned about skiing's environmental effects. Stoddart not only challenges us to reflect more seriously on skiing's negative impact on mountain environments, he also reveals how certain groups came to be viewed as the natural inhabitants and legitimate managers of mountain environments.

Autonomy, Mastery and Purpose in the Avalanche Patch Lee Thompson, Marial Shea, 2015-10 What are our survival odds in avalanche country? Author Bruce Kay explores this puzzle in *Autonomy, Mastery and Purpose*. Drawing from the experiences of his peers and his own 35 years as a climber, skier and avalanche professional, Kay explains why avalanche country demands a unique mindset of managing risk by consideration of the unknown as much as the known. He explores related topics, including: - The Siren Song of Culture - Intuition and Bias - what is the difference? - Optimism and Luck - do we roll the dice or calculate risk? - The Expert Illusion - Strategic Mindset Using the work of Ian McCammon, Gary Klein and the Nobel Prize winning Kahneman, Kay shows how the avalanche problem is nearly perfectly designed to produce errors in judgement, yet still provide opportunity for solution. This is brought to life using case studies and adrenaline - pumping stories from fellow professionals and recreationists. He warns that his book may at times demand a bit more of the reader than the average ski video, but if truly interested in surviving to ski another day, this book is for you.

Although the environmental effects of extractive industries are well known, skiing is more likely to bring to mind images of luxury, wealth, and health. Drawing on interviews, field observations, and media analysis, Stoddart reveals the multiple, often conflicting meanings attached to skiing by skiers, mass media, First Nations, industry leaders, and environmentalists in British Columbia.
