Great Windows in Modern Architecture Kevin Adams,2024-03-29 Windows are moments in modern architecture where we look to ascertain elegance, technical expression and material language or to capture a certain atmosphere. A window opening is as much an interval and an opportunity as it is a device for admitting light, air or views; it is simultaneously a physical aperture but also a philosophical opening of collaboration and reflection. In order to understand the language of a building we might look to the detail of the window. But what does this mean and why does modern architecture invest so much expression in the window? This book explores how the act of detailing and situating windows in buildings is a key proponent in the language of architecture, which both informs and works with the contingencies of design and construction. It investigates 18 case studies in-depth using painstakingly drawn details and vivid photographs in full colour to define what makes these windows “great” and how each window is situated within both its technical and philosophical context and as an overall development of modern architecture. Case studies include the work of Walter Gropius, Mies van der Rohe, Pierre Chareau, Frank Lloyd Wright, Alvar Aalto, Carlo Scarpa, Le Corbusier, Stirling and Gowan, Raili and Reima Pietilä, Louis Kahn, Peter Womersley, Miralles/Pinós, Steven Holl, Glen Murcutt and O'Donnell + Tuomey.

My Windows 8.1 Katherine Murray,2013 Presents step-by-step instructions on the features of Windows 8.1, covering such topics as working with the desktop, exploring applications, managing files, and connecting with other devices and the Cloud.

Keywords: Bricks and Blocks, Fly Ash Bricks, Calcium Silicate Bricks, Autoclaved Aerated Concrete (AAC) Blocks, Compressed Earth Blocks, Stabilized Mud Blocks, Concrete Blocks, Reinforced Hollow Concrete Block Masonry, Concrete Pavement Blocks, Beams with Longitudinal Reinforcements, Surface Textures, Smooth Surfaces, Fluted or Rough Finishes, Automated Production.

SELF-BUILDING WITH AUTOCLAVED AERATED CONCRETE BLOCKS Michael Keating,2024-03-22 Large format, print editions of this book, with full colour photos illustrating the text descriptions, can be purchased at www.mybestseller.co.uk/M.Keating This is the story of our house build in Germany. This book is intended as a birds-eye view of the work, not a guide to absolutely everything involved with the process. I wrote it to inform you, the prospective self-builder, on the work involved, in order to help you decide whether this is something you feel you could do yourself. It will not be physically possible to do absolutely everything by yourself, you will still occasionally need a helper or two and the building process may vary slightly in other countries due to availability of specific materials, but the basic procedures in the book remain valid. When we signed the contract for our building materials we were given a German book on self-building with AAC. I didn't speak German and could not find an appropriate English language book, so I decided to photo-document our entire construction process and write a book on it. Many of these photos are included in this book to aid to full comprehension of the house build (there are no photos in the e-book).
