Hidden Pieces Paula Stokes, 2018-08-28 A small town. A big secret. A deadly game. From the author of *Liars, Inc.*, comes a dark, contemporary thriller with twists and turns that are perfect for fans of *We Were Liars*, *Little Monsters*, and *One of Us Is Lying*. Embry Woods has secrets. Some are small, like the ones about her complicated past. Others are bigger, like her growing feelings for best friend's ex-boyfriend, Holden. But the biggest secret she carries is about what they did at the abandoned Sea Cliff Inn...and the resulting terrible fire. Embry helps a homeless man escape from the flames and is immediately hailed as a hero, but she knows that couldn't be further from the truth. Though she's wracked with guilt, Embry thinks she can take one last secret to her grave. But then she receives an anonymous note—someone else was there that night. Now she must respond to a series of threatening messages asking her to make impossible choices. Someone is playing a high-stakes game with her life. And their last move is murder.

[The Silo Series Collection](#) Hugh Howey, 2020-05-19 For the first time ever, *The Silo Saga* Omnibus brings together all of the work in Hugh Howey's ground-breaking, best-selling, acclaimed series, including the individual novels *Wool*, *Shift*, and *Dust*, as well as original essays by the author, and a bonus chapbook of short fiction, *Silo Stories*. The remnants of humanity live underground in a vast silo. In this subterranean world, rules matter. Rules keep people alive. And no rule is more strictly enforced than to never speak of going outside. The punishment is exile and death. When the sheriff of the silo commits the ultimate sin, the most unlikely of heroes takes his place. Juliette, a mechanic from the down deep, who never met a machine she couldn't fix nor a rule she wouldn't break. What happens when a world built on rules is handed over to someone who sees no need for them? And what happens when a world broken to its core comes up against someone who won't stop

until things are set to right? Their world is about to fall. What—and who—will rise?

Contested Terrain Steven Ratuva, 2019-09-10 *Contested Terrain* provides a cutting-edge, comprehensive and innovative approach to critically analysing the multidimensional and contested nature of security narratives, justified by different ideological, political, cultural and economic rationales. This is important in a complex and ever-changing situation involving a dynamic interplay between local, regional and global factors. Security narratives are constructed in multiple ways and are used to frame our responses to the challenges and threats to our sense of safety, wellbeing, identity and survival but how the narratives are constructed is a matter of intellectual and political contestation. Using three case studies from the Pacific (Fiji, Tonga and Solomon Islands), *Contested Terrain* shows the different security challenges facing each country, which result from their unique historical, political and socio-cultural circumstances. Contrary to the view that the Pacific is a generic entity with common security issues, this book argues for more localised and nuanced approaches to security framing and analysis.

Blind Waves Steven Gould, 2001-01-15 The author of *Jumper* returns with a near-future SF novel, set in an America whose coastline has been drowned by melting Antarctic ice. In the world where hundreds of millions of people have been displaced from their homes by the Deluge--a hundred-foot-rise in sea level from melting ice caps--Partricia Beenan is lucky. She is still an American citizen with the right to live on the continent, unlike so many wetfoots whose homes lie deep under the waves or the refugees from nations now completely under water. But Patricia's father chose to live on a

floating city of New Galveston, instead of following his congresswomen wife to Washington, and go into the underwater salvage business. Now, several years after his death, it's Patricia's business and her city. She's a wealthy woman, on the city council, well known to local INS commander and the New Galveston police. But none of that will help Patricia when she stumbles across a recently sunken freighter that has dozens of bodies chained up in its hold and clear evidence that it has been fired upon by an INS ship. Patricia's evidence of a rogue operation within the INS brings her together with Thomas Beckett, a government investigator assigned to the case. Romance blossoms while they pursue and are pursued by the killers, into the heart of the conspiracy.

No god but God: The Origins and Evolution of Islam Reza Aslan, 2012-08-14 Engaging, accessible, and thought-provoking, No god but God is a persuasive, elegantly written, and accessible

introduction for young readers to a faith that for much of the West remains shrouded in ignorance and fear. Adapted for young readers from *No god but God: The Origins, Evolution, and Future of Islam*, this exploration of Islam by Reza Aslan, internationally acclaimed scholar of comparative religion, delves into the rituals and traditions of a religion that is largely misunderstood by the West. It covers the religion's origins—the revelation of Muhammad as Prophet and the subsequent uprising against him, and the emergence of his successors—as well as Islam's complex history. *No god but God* is sure to stimulate discussion and encourage understanding of the Islamic faith and the people who follow it. Praise for *No god But God: The Origins, Evolution, and Future of Islam* of Islam “This welcome addition to Islamic studies provides a valuable context for reflection about the origins of issues facing Muslims and their neighbors today.”—Publishers Weekly “An introduction to Islam as evocative as it is provocative.”—Kirkus Reviews “Wise and passionate book.”—New York Times Financial Times Best Book of the Year

The Magicians Trilogy Books 1-3 Lev Grossman, 2015-06-09 The entire #1 New York Times bestselling Magicians trilogy, including *The Magicians*, *The Magician King*, and *The Magician's Land*, now available in one ebook bundle *The Magicians* Quentin Coldwater is brilliant but miserable. A high school math genius, he's secretly fascinated with a series of children's fantasy novels set in a magical land called Fillory, and real life is disappointing by comparison. When Quentin is unexpectedly admitted to an elite, secret college of magic, it looks like his wildest dreams may have come true. But his newfound powers lead him down a rabbit hole of hedonism and disillusionment, and ultimately to the dark secret behind the story of Fillory. The land of his

childhood fantasies turns out to be much darker and more dangerous than he ever could have imagined . . . *The Magicians* is one of the most daring and inventive works of literary fantasy in years. No one who has escaped into the worlds of *Narnia* and *Harry Potter* should miss this breathtaking return to the landscape of the imagination. The Magician King Quentin Coldwater should be happy. He escaped a miserable Brooklyn childhood, matriculated at a secret college for magic, and graduated to discover that Fillory—a fictional utopia—was actually real. But even as a Fillorian king, Quentin finds little peace. His old restlessness returns, and he longs for the thrills a heroic quest can bring. Accompanied by his oldest friend, Julia, Quentin sets off—only to somehow wind up back in the real-world and not in Fillory, as they’d hoped. As the pair struggle to find their way back to their lost kingdom, Quentin is forced to rely on Julia’s illicitly learned sorcery as they face a sinister threat in a world very far from the beloved fantasy novels of their youth. The Magician’s Land Quentin Coldwater has lost everything. He has been cast out of Fillory, the secret magical world of his childhood dreams that he once ruled. With nothing left to lose he returns to where his story began, the Brakebills Preparatory College of Magic. But he can’t hide from his past, and it’s not long before it comes looking for him. Meanwhile, the magical barriers that keep Fillory safe are failing, and barbarians from the north have invaded. Eliot and Janet, the rulers of Fillory, embark on a final quest to save their beloved world, only to discover a situation far more complex—and far more dire—than anyone had envisioned. Along with Plum, a brilliant young magician with a dark secret of her own, Quentin sets out on a crooked path through a magical demimonde of gray magic and desperate characters. His new life takes him back to old haunts, like Antarctica and the Neitherlands, and old friends he thought were lost forever. *The Magician’s Land* is an intricate and fantastical thriller, and an epic of love and redemption that brings the Magicians

trilogy to a magnificent conclusion, confirming it as one of the great achievements in modern fantasy.
