Out of Love Hazel Hayes,2021-09-28 One of E! News' 13 Books to Read This September | One of Bookish's Debuts to Read in the Second Half of 2021 | One of Medium's Best Releases Out Today “Hazel Hayes writes with such honesty and casual confidence and flowing dialogue, you feel you are overhearing it rather than reading it. The writing sparkles with wit and a poignant emotional reality. I love it.”—Matt Haig, bestselling author of The Midnight Library “A smart, touching, time-bending romance. Funny and affecting.”—David Nicholls, bestselling author of One Day and Sweet Sorrow For anyone who has loved and lost, and lived to tell the tale, this gorgeously written debut is a love story told in reverse, a modern novel with the heart of a classic: truthful, tragic, and ultimately full of hope. Out of Love begins at the end. A couple call it quits after nearly five years, and while holding a box of her ex-boyfriend's belongings, the young woman wonders: How could they have spent so long together? When did they fall out of love? Were there good times before the bad? These are the questions we obsess over when a relationship ends, even when obsessing can do no good. But instead of moving forward through the emotional fallout of a break-up, Out of Love moves backward in time, weaving together an already unraveled tapestry, from tragic ending to magical first kiss. Each chapter jumps further into the past, mining their history for the days and details that might help us understand love; how it happens and why it sometimes falls apart. Readers of Normal People; Goodbye, Vitamin; and One Day will adore this bittersweet romance, a sparkling debut that you won't want to miss.

The People, No Thomas Frank,2020-06-23 From the prophetic author of the now-classic What's the Matter with Kansas? and Listen, Liberal, an eye-opening account of populism, the most important—and misunderstood—movement of our time. Rarely does a work of history contain startling implications for the present, but in The People, No Thomas Frank pulls off that explosive effect by showing us that everything we think we know about populism is wrong. Today “populism” is seen as a frightening thing, a term pundits use to describe the racist philosophy of Donald Trump and European extremists. But this is a mistake. The real story of populism is an account of enlightenment and liberation; it is the story of American democracy itself, of its ever-widening promise of a decent life for all. Taking us from the tumultuous 1890s, when the radical left-wing Populist Party—the biggest mass movement in American history—fought Gilded Age plutocrats to the reformers' great triumphs under Franklin Roosevelt and Harry Truman, Frank reminds us how much we owe to the populist ethos. Frank also shows that elitist groups have reliably detested populism, lashing out at working-class concerns. The anti-populist vituperations by the Washington centrists of today are only the latest expression. Frank pummels the elites, revisits the movement's provocative politics, and declares true populism to be the language of promise and optimism. The People, No is a ringing affirmation of a movement that, Frank shows us, is not the problem of our times, but the solution for what ails us.

What will your life look like when you live to be over 100? Will you be healthy? Will your marriage need a sunset clause? How long will you have to work? Will you finish one career at sixty-five only to go back to school to learn a new one? And then, will you be happily working for another sixty years? Maybe you'll be a parent to a newborn and a grandparent at the same time. Will the world become overpopulated? And how will living longer affect your finances, your family life, and your views on religion and the afterlife? In 100 Plus, futurist Sonia Arrison takes us on an eye-opening journey to the future at our doorsteps, where science and technology are beginning to radically change life as we know it. The astonishing advances to extend our lives—and good health—are almost here. In the very near future fresh organs for transplants will be grown in laboratories, cloned stem cells will bring previously unstoppable diseases to their knees, and living past 100 will be the rule, not the exception. Sonia Arrison brings over a decade of experience researching and writing about cutting-edge advances in science and technology to 100 Plus, painting a vivid picture of a future that only recently seemed like science fiction, but now is very real. 100 Plus is the first book to give readers a comprehensive understanding of how life-extending discoveries will change our social and economic worlds. Truth Plus Love Matt Brown,2019-04-23 Imagine what our world might look like if Christians became known for remarkable love, as well as life-giving truth. The stakes are high and the need is great for Christians to represent Jesus to a watching world. And today, we have more influence than ever before--for better and for worse. We are among the first generations to have access to a global megaphone through social media. But it's not enough to speak truth louder to a noisy culture. To counter the reputation Christians have earned, our love must be just as loud. Ask evangelist Matt Brown, and he will tell you Christians today are facing a crisis of influence. In our rush to speak truth to today's tensions, cultural issues, and trending controversies, it becomes all too easy to focus on proving our points rather than extending God's grace. Conversely, when we seek only to love yet never proclaim a better way, we short-circuit God's plan. Truth Plus Love invites you to rediscover the biblical framework for engaging culture as ambassadors of Christ. Through biblical insight, cultural analysis, and practical principles, Matt Brown outlines how to champion truth without compromise, how to love unconditionally, and ultimately, how to step into this great adventure of representing God to the world. It's hard, it's messy, and it's the unfinished project of a lifetime, yet here we find our great adventure: representing God to a watching world.
