**The Zombie in Contemporary French Caribbean Fiction** Lucy Swanson,2023-02-15 Believed to have emerged in the French Caribbean based on African spirit beliefs, the zombie represents not merely the walking dead, but also a walking embodiment of the region's history and culture. In Haiti today, the zombie serves as an enduring memory of enslavement: it is defined as a reanimated body robbed of part of its soul, forced to work in sugarcane fields. In Martinique and Guadeloupe, the zombie takes the form of a shape-shifting evil spirit, and represents the dangers posed to the maroon or "freedom runner." The *Zombie in Contemporary French Caribbean Fiction* is the first book-length study of the literary zombie in recent fiction from the region. It examines how this symbol of the enslaved (and of the evil spirits that threaten them) is used to represent and critique new socio-political situations in the Caribbean. It also offers a comprehensive and focused examination of the ways contemporary authors from Haiti and the French Antilles contribute to the global zombie imaginary, identifying four "avatars" of the zombie—the slave, the trauma victim, the horde, and the popular zombie—that appear frequently in fiction and anthropology, exploring how works by celebrated and popular authors reimagine these archetypes.

**Theorising the Contemporary Zombie** Scott Hamilton, Conor Heffernan, 2022-05-15 Zombies have become an increasingly popular object of research in academic studies and, of course, in popular media. Over the past decade, they have been employed to explain mathematical equations, vortex phenomena in astrophysics, the need for improved laws, issues within higher education, and even the structure of human societies. Despite the surge of interest in the zombie as a critical metaphor, no coherent theoretical framework for studying the zombie actually exists. Addressing this current gap in the literature, *Theorising the Contemporary Zombie* defines zombiism as a means of theorising and examining various issues of society in any given era by immersing those social issues within the destabilising context of apocalyptic crisis; and applying this definition, the volume considers issues including gender, sexuality, family, literature, health, popular culture and extinction.
