G.7 Global Value Chains and Trade in Value Added -

UNSD Web Globalization has led to changes in production processes with production fragmented across economies in a production chain between resident and non-resident firms – the basis of global value chains (GVC). **OECD-WTO Database on Trade in Value-Added Web** The Trade in Value-Added Initiative addresses the double counting implicit in current gross flows of trade, and instead measures flows related to the value that is added (labour compensation, taxes and profits) by a country in the production of any good or service that is exported. Country. Gross exports (110)
