Recent international developments pose potentially sizable downside risks to the Czech Republic's economy. The main downside risks revolve around Brexit, trade tensions between the United States and China, and weakening demand in the euro area. These developments could reduce the demand for Czech exports and increase the price of imports. *OECD-WTO Database on Trade in Value-Added* The Trade in Value-Added Initiative addresses the double counting implicit in current gross flows of trade, and instead measures flows related to the value that is added (labour compensation, taxes and profits) by a
