Confronting Corruption Jeremy Pope, 2000 The first version of this Source Book argued the case for a National Integrity System, an holistic approach to transparency and accountability and embracing a range of accountability pillars, democratic, judicial, media and civil society. The expression has since passed into common usage in development circles, and the argument for an holistic approach to anti-corruption efforts has similarly achieved a widespread consensus. The fight against corruption is not wholly a moral one, in the sense that it is a struggle against the intrinsic evil of corruption. Certainly there is a moral element - and one which cuts across all major religions and societies throughout the world. But the compelling reason for the struggle is the suffering and deprivation corruption brings to whole societies, and to the world's most poor. It is concern for the latter, rather than a distaste for the corrupt and their deeds, that rightly drives the global movement against corruption.

Alternative Sweet and Supersweet Principles Ram Snehi Dwivedi, 2022-09-24 This book compiles the latest information on different kinds of natural, plant-based super sweeteners. A book on alternative, natural super sweeteners is extremely timely and useful, especially, in light of the decreasing cultivable area, ever increasing demand for sucrose, and the well identified ills of sugar consumption. Every year more than 5.0 million people die due to diabetes and diabetes-associated diseases like cardiovascular, kidney disorder, liver cancer etc. This book describes the use of non-saccharide super sweet principles to counter such maladies. The readers will get an in-depth understanding of different kinds of sweeteners, molecular basis of sweetness, their general classification, plant source with photo-plates etc. The chapters explain different kinds of super-sweet principles. This book emphasizes on the propagation, cultivation and conservation of NSSS plants (NSSSP) and extraction of super sweet principles and granting of generally recognised as safe (GRAS) certificate to sweeteners. The concluding chapter describes the eco-physiological difference between saccharide super sweet and non saccharide sweet plants. The book also describes commercial production of selected potential Natural Super Sweeteners. This book will be of great interest to researchers, extension workers as well as postgraduate students in Food science nutrition, ayurveda, plant physiology, Unani, naturopathy, biochemistry and plant breeding. It would also be of interest to industry stakeholders in sweetener industry and alternative sweetener manufactures.

Handbook of Vegetable Preservation and Processing Y. H. Hui, Sue Ghazala, Dee M. Graham, K.D. Murrell, Wai-Kit Nip, 2003-09-12 Representing the vanguard in the field with research from more than 35 international experts spanning governmental, industrial, and academic sectors, the Handbook of Vegetable Preservation and Processing compiles the latest science and technology in the processing and preservation of vegetables and vegetable products. This reference serves as the only guide to compile key tools used in the United States to safeguard and protect the quality of fresh and processed vegetables. A vast and contemporary source, it considers recent issues in vegetable processing safety such as modified atmosphere packaging, macroanalytical methods, and new technologies in microbial inactivation.

European Police and Criminal Law Co-operation, Volume 5 Maria Bergström,Anna Jonsson Cornell,2014-12-18 This volume in the series Swedish Studies in European Law, produced by the Swedish Network for European Legal Studies, focuses on EU criminal law and transnational police co-operation. Against the background of the most important changes introduced by the Lisbon Treaty in the area of criminal law and police co-operation, this volume is divided into four main sections. Each section analyses some specific challenges. The first section includes a critical analysis of the boundaries of the new criminal law competencies, as well as some more general challenges for EU criminal law. Specific focus is set on the lawmaking process. The second section deals with EU criminal law and fundamental rights, in particular the protection of personal data and individual privacy. In this section, focus is on the implementation of EU law into national legal orders and the challenges that this process brings with it. The third section maps out specific challenges in transnational police co-operation, in particular, the important issue of sharing of information between law enforcement agencies and its potential impact on the protection of fundamental rights. In the fourth section, focus is shifted toward networks, horizontal agency and multi-level co-operation in a wider sense within the area of freedom, security and justice.

Multifunctional Land Use Ülo Mander,Hubert Wiggering,Katharina Helming,2007-05-11 This book is a major contribution to the debate on future land development strategies, as well as helping to supporting land use decision making at all levels. Scientists from across Europe installed the Landscape Tomorrow network to prepare for upcoming challenges in research on sustainable land development. The book's interdisciplinary perspective analyses, among other things, the general principles of land use multifunctionality and reports on a variety of success stories.

War with Iran Geoffrey Kemp,2013 War With Iran: Political, Military and Economic Consequences provides readers both a history of Iran's relationship with the West and an expert's estimation of what the political, human and financial costs of full-scale war with Iran might be. Authors Geoffrey Kemp and John Allen Gay of the Center for the National Interest utilize their years studying and informing America's foreign policy in the Middle East to bring to life the possible outcomes of an American military intervention in Iran. Such a decision would not only have catastrophic consequences on the Persian Gulf, but would also endanger the whole world's delicate economy by heightening instability in a fragile but resource-rich region. Written for anyone with an interest in the future of American foreign policy, War With Iran explores what every player has at stake in the current crisis by analyzing every tension adjacent to it; from America's staunch support of Israel to Iran's own dogged pursuit of advanced nuclear capabilities. Controversial, timely and thoroughly researched, this story stands as a preliminary caution against what would be a devastating meltdown of diplomacy, for which--if peace be the goal--there is always time.

Your Code as a Crime Scene Adam Tornhill, 2015-03-30 Jack the Ripper and legacy codebases have more in common than you'd think. Inspired by forensic psychology methods, you'll learn strategies to predict the future of your codebase, assess refactoring direction, and understand how your team influences the design. With its unique blend of forensic psychology and code analysis, this book arms you with the strategies you need, no matter what programming language you use. Software is a living entity that's constantly changing. To understand software systems, we need to know where they came from and how they evolved. By mining commit data and analyzing the history of your code, you can start fixes ahead of time to eliminate broken designs, maintenance issues, and team productivity bottlenecks. In this book, you'll learn forensic psychology techniques to successfully maintain your software. You'll create a geographic profile from your commit data to find hotspots, and apply temporal coupling concepts to uncover hidden relationships between unrelated areas in your code. You'll also measure the effectiveness of your code improvements. You'll learn how to apply these techniques on projects both large and small. For small projects, you'll get new insights into your design and how well the code fits your ideas. For large projects, you'll identify the good and the fragile parts. Large-scale development is also a social activity, and the team's dynamics influence code quality. That's why this book shows you how to uncover social biases when analyzing the evolution of your system. You'll use commit messages as eyewitness accounts to what is really happening in your code. Finally, you'll put it all together by tracking organizational problems in the code and finding out how to fix them. Come join the hunt for better code! What You Need: You need Java 6 and Python 2.7 to run the accompanying analysis tools. You also need Git to follow along with the examples.

Cowpens Thomas J. Fleming, 1988 Recounts the story behind the defeat, of the British forces under Banastre Tarleton by Daniel Morgan's rebels, that helped turn the tide of the Revolutionary War in the South. The battlefield, a pasture in North Carolina, is now part of the National Park System. Includes brief notes about related battlegrounds and a list of books for further reading.
