Chinese Astrology Plain & Simple Jonathan Dee, 2017-01-01 Though perhaps less well-known here than its Western counterpart, Chinese astrology is every bit as illuminating and provides an equally valuable shortcut to self-knowledge. Jonathan Dee, the well-respected author of several books on astrology, tarot, and fortune-telling, reveals all the mysteries of the art in this informative volume. Filled with legends, charts, and history, it contains all of the essentials for working out your Chinese horoscope including the animal signs for each birthday year, month, and hour. Each sign receives a richly detailed and enlightening explanation. Among the amusing and informative tidbits here: The rat is considered to be the sign of charm and is noted for its shrewdness, enterprise, and wealth. Rats are also prosperous, entrepreneurial, obsessive, anxious, bossy, and mean. The ox is the sign of tenacity and prosperity and a symbol of fertility and muscular strength. People born under the ox are patient, contemplative, eloquent, chauvinistic, petty, and grumpy. The monkey is lively, complex, charming, diplomatic, and agile. Monkeys are also dishonest, sarcastic, lacking respect, and restless. Chinese Astrology, Plain and Simple is an accessible introduction that enlightens, entertains, and informs.

Learning Astrology Damian Sharp, 2005-10-08 “[Sharp] elegantly casts a web of astrological knowledge . . . as he explains the nuances of each aspect that influences the individual horoscope.” —Library Journal “Astrology is both a science and an art. It is a symbolic representation of all of the elements—religious, spiritual, emotional, mental and physical, visible and invisible—that exist in the universe and come together in various and diverse combinations to account for individual human beings and the forces that shape and act upon them.” While there are numerous astrology books available, many are decades old and require you to wade through a morass of technical details just to get to the basics. In *Learning Astrology*, Damian Sharp provides a fun, fresh approach to understanding this ancient art, making it easily accessible to those who are completely new to the subject and/or put off by older, more complicated books. In clear, concise language and an easy-to-follow order, he provides insight into sun signs and planets, houses and aspects and shows us how to actually read an astrological chart, simply and accurately. And if you want the more technical details, Sharp provides those, too. By the end of the book, you’ll be discussing conjunctions, sextiles, squares,

and trines like a pro. Learn astrology from Damian Sharp and become your own astrologer.

Taoist Astrology Susan Levitt,1997-06-01 This guide brings Chinese astrology back to its ancient roots, providing all the information you need for understanding one of the world's oldest systems of divination. The ancient Chinese people developed a sophisticated science of astrology that continues to have profound influence in China today. Rooted in the fundamentals of Taoism, it evolved into a system vastly different from Western astrology. Rather than determining personality by the time of the year in which you are born, in Taoist astrology it is the year itself that determines your character. The years form a twelve-year cycle of signs, each named after an animal. Additionally, your personality depends on which of the five traditional Taoist elements you are born under--water, wood, fire, earth, or metal. This makes for a cycle of sixty unique signs. Taoist Astrology includes information for each sign's personality, compatibility, child-parent relations, and rising and falling fortunes during the twelve-year cycle. Discussions of yin and yang, Confucianism and Buddhism, Taoist alchemy, and the connection between Taoist astrology and Western astrology give you all the background you need for understanding one of the oldest systems of divination known to humanity. Taoist Astrology differs from other books on the subject by grounding its concepts in the ancient traditions from which it originated.
