Private Newport Bettie Bearden Pardee,2004-04-14 Newport, Rhode Island, blessed with stunning ocean vistas and constant sea breezes, is home to some of the most exceptional private residences in America. Its deeply rooted history makes it a perennial destination, with more than 3.5 million visitors each year. Although it is one of the most high profile towns in the country, Newport is also one of the most cloistered. Private Newport: At Home and in the Garden offers an invitation to venture beyond the privet hedges and massive iron gates. It is the first book to step inside the privately owned mansions to reveal a diverse collection of architectural jewels complemented by spectacular gardens. These homes, created by distinguished architects and landscape designers, are stunning examples of Newport's 375-year old-world heritage. Eighteen exquisite and unique homes are prominently featured-from the resilient crescent curve of majestic Seafair, which withstood the Hurricane of '38, to the prizewinning Japanese garden at Wildacre, to the nostalgic working farm of heritage breeds at Swiss Village-each contributing its own part to the Eden of America.

Yacht Design O/P Vripack,2018 Our Yacht designs have a balance of masculine exterior meeting for adventure and an unconventional layout for comfort inside, and nothing less - Marnix J. Hoekstra. Braving storms and monster waves or dropping anchor off a tropical island coast, the designers of Studio Vripack masterfully exploit the limited space on board yachts to maximise comfort, safety and efficiency. Vripack is renowned throughout the nautical world for their creative designs and innovative nautical architecture. Designs range from extremely fast yachts to resort-like yachts with their own pool and gym. This book presents Dutch powerhouse Vripack and its most sensational yachts, that brave every last inch of the world's seas. Board Vripack's yachts and enjoy their designs, as well as their struggle against the capricious tides, and their challenging mission to combine beauty, safety and comfort. AUTHOR: Vripack is a Dutch studio, organises nautical design projects throughout the world. The brand has symbolised an holistic approach to design, naval architecture and engineering since 1962. With over 7,000 projects, Vripack is a major player in the global market, striving to better prepare ships, as well as ship-owners for their naval adventures. SELLING POINTS: * Showcases life on board some of the world's most luxurious yachts * Inspiring and breathtaking * Vripack is the winner of the 46th international design and innovation awards 220 colour, 60 b/w images

Designing Interior Architecture Sylvia Leydecker,2013-05-28 Designing interior spaces is a task that is equally relevant as architecture, landscape architecture, and urban design for those working professionally in the built environment. In this comprehensive work, an international and interdisciplinary team of authors presents the essential aspects of the various fields of contemporary interior architecture and design. The project examples are illustrated with brilliant photographs and plans. They have been selected according to consistent criteria for all chapters of the book and represent the essential building types, including exhibition stand design, as well as a broad range of today's design approaches. The authors place the collaboration between the various design disciplines at the center of focus. The appendix contains information for further research. All in all, Designing Interior Architecture is a fundamental reference work for all those professionally engaged with the design.

The Multi-Skilled Designer Newton D'souza,2019-11-21 The Multi-Skilled Designer presents and analyzes different approaches to contemporary architectural design and interprets them through the theory of multiple intelligences. The book establishes a systematic framework that uses the lens of cognitive psychology and developments in psychometric and brain research to analyze the unique cognitive thought processes of architectural designers and compiles design projects that could serve as a pedagogical companion for the reader. The book is aimed at design practitioners and students interested in examining their own thinking styles as well as those involved in design cognition research.

Human Interaction, Emerging Technologies and Future Applications III Tareq Ahram,Redha Taiar,Karine Langlois,Arnaud Choplin,2020-08-05 This book reports on research and developments in human-technology interaction. A special emphasis is given to human-computer interaction, and its implementation for a wide range of purposes such as healthcare, aerospace, telecommunication, and education, among others. The human aspects are analyzed in detail. Timely studies on human-centered design, wearable technologies, social and affective computing, augmented, virtual and mixed reality simulation, human rehabilitation and biomechanics represent the core of the book. Emerging technology applications in business, security, and infrastructure are also critically examined, thus offering a timely, scientifically-grounded, but also professionally-oriented snapshot of the current state of the field. The book is based on contributions presented at the 3rd International Conference on Human Interaction and Emerging Technologies: Future Applications, IHiet 2020, held on August 27-29, 2020. It offers a timely survey and a practice-oriented reference guide to researchers and professionals dealing with design and/or management of the new generation of service systems.

Inspired by Light Sally Storey,2021-12-24 Lighting has undergone a revolution in recent years, with new tools and technologies at our disposal: never before have there been so many options to achieve the transformative effects of light. Yet all too often, lighting - which does not just enable functionality, but also mood, aesthetics and flow - is misunderstood, or plain badly done. With so many options available, it's also all too easy to make mistakes; and with new technologies such as LEDs lasting a long time, these mistakes can be expensive. Offering practical insight and visual inspiration on successful lighting solutions and schemes, this is the most accessible lighting design guide, offering a toolbox of techniques to apply in practice. Written by one of the UK's leading lighting designers on both commercial and residential projects, it features a variety of real-world projects - large and small, old and new, interior and exterior, UK and global.

Ship Design Apostolos Papanikolaou,2014-09-16 This book deals with ship design and in particular with methodologies of the preliminary design of ships. The book is complemented by a basic bibliography and five appendices with useful updated charts for the selection of the main dimensions and other basic characteristics of different types of ships (Appendix A), the determination of hull form from the data of systematic hull form series (Appendix B), the detailed description of the relational method for the preliminary estimation of ship weights (Appendix C), a brief review of the historical evolution of shipbuilding science and technology from the prehistoric era to date (Appendix D) and finally a historical review of regulatory developments of ship's damage stability to date (Appendix E). The book can be used as textbook for ship design courses or as additional reading for university or college students of naval architecture courses and related disciplines; it may also serve as a reference book for naval architects, practicing engineers of related disciplines and ship officers, who like to enter the ship design field systematically or to use practical methodologies for the estimation of ship's main dimensions and of other ship main properties and elements of ship design.

Superyacht Captain Brendan O'Shannassy,2022-04-14 In Superyacht Captain, a professional at the zenith of one of the world's most lavish and exclusive industries gives a rare insight into a career that makes for eyebrow-raising reading, as entertaining as it is instructive. The tale of an ordinary boy whose career takes him on a most extraordinary journey, this book begins with Brendan messing about in boats in a sleepy coastal Australian town, and ends with him becoming one of the most successful and respected superyacht captains in the industry - the consummate 'Billionaire's Captain'. Spanning two decades and circling the globe, his story draws readers into the real world of superyachts, their crew and their owners, in the most intimate of ways. Brendan weaves in the lessons he's learned as he's progressed from deck hand to captain, and these insights are valuable for anyone leading teams with demanding objectives. As captain, Brendan was expected to achieve excellence every single time, and here he reveals how he learnt to deal with the 'everyday' demands of the job as well as emergency situations. Surprisingly humble and self aware, in a world of glitter and extravagance you can see why he's trusted. All of this is told against a backdrop of seemingly impossible glamour at the most extravagant edge of the boating spectrum, with plenty of entertaining stories of the superyacht lifestyle. A brilliant read for all sailors and motorboaters, for the many superyacht fans out there, as well as anyone interested in leadership and management techniques from someone at the

top of their game, working for those who define the rules of the game.

Logotype Michael Evamy,2012-09-24 Logotype is the definitive modern collection of logotypes, monograms and other text-based corporate marks. Featuring more than 1,300 international typographic identities, by around 250 design studios, this is an indispensable handbook for every design studio, providing a valuable resource to draw on in branding and corporate identity projects. Logotype is truly international, and features the world's outstanding identity designers. Examples are drawn not just from Western Europe and North America but also Australia, South Africa, the Far East, Israel, Iran, South America and Eastern Europe. Contributing design firms include giants such as Pentagram, Vignelli Associates, Chermayeff & Geismar, Wolff Olins, Landor, Total Identity and Ken Miki & Associates as well as dozens of highly creative, emerging studios. Retaining the striking black-and-white aesthetic and structure of Logo (also by Michael Evamy) and Symbol, Logotype is an important and essential companion volume.

Light Space Life SAOTA,2022-01-18 A monograph on leading South African architecture studio SAOTA. Light Space Life is the first monograph from internationally recognized South African architecture studio SAOTA, known for crafting exceptional modern buildings that forge powerful connections to their extraordinary settings. Presenting memorable and distinctive residences selected from its wide-ranging global output, the book celebrates thirty-five years of innovative residential design from Lagos to Los Angeles, including houses from the dramatic South African coast where it all began. SAOTA is led by Stefan Antoni, Philip Olmesdahl, Greg Truen, Philippe Fouché, Mark Bullivant, and Logen Gordon, and has designed luxury residential and commercial projects on six continents. With reference to South African Modernism, and a grounding in the International style, its projects take advantage of wildly beautiful settings, and are rooted in place by the relationship between the building and its site. The practice cites spirit of enquiry and close examination of function and form as hallmarks of its work, as well as the use of the most current technology, including virtual reality, in its design processes. This monograph features twenty-three recent residential projects from around the world, with a particular focus on Africa, illustrated with color photography and including a foreword by SAOTA's client Reni Folawiyo, founder of the West African fashion label, Alara.

A Man and His Ship Steven Ujifusa,2013-06-04 "A fascinating historical account...A snapshot of the American Dream culminating with this country's mid-century greatness" (The Wall Street Journal) as a man endeavors to build the finest, fastest, most beautiful ocean liner in history. The story of a great American Builder at the peak of his power, in the 1940s and 1950s, William Francis Gibbs was considered America's best naval architect. His quest to build the finest, fastest, most beautiful ocean liner of his time, the SS United States, was a topic of national fascination. When completed in 1952, the ship was hailed as a technological masterpiece at a time when "made in America" meant the best. Gibbs was an American original, on par with John Roebling of the Brooklyn Bridge and Frank Lloyd Wright of Fallingwater. Forced to drop out of Harvard following his family's sudden financial ruin, he overcame debilitating shyness and lack of formal training to become the visionary creator of some of the finest ships in history. He spent forty years dreaming of the ship that became the SS United States. William Francis Gibbs was driven, relentless, and committed to excellence. He loved his ship, the idea of it, and the realization of it, and he devoted himself to making it the epitome of luxury travel during the triumphant post-World War II era. Biographer Steven Ujifusa brilliantly describes the way Gibbs worked and how his vision transformed an industry. A Man and His Ship is a tale of ingenuity and enterprise, a truly remarkable journey on land and sea.

APA Made Easy | In Accordance with the 6th Edition APA Manual Scott Matkovich,2012 15 Minutes. That's as long as we think any student should have to spend formatting their papers. Unfortunately, students often spend hours trying to find answers from hard to follow manuals or confusing websites. Whether you want a step-by-step guide to building a title page, suggestions for writing with greater clarity, or freedom from doing internet searches every time you have a question about APA standards, APA Made Easy is the only blueprint that you will need for writing in APA style. This comprehensive writing guide includes illustrated steps for formatting an APA document in: Microsoft Word 2010, Microsoft Word 2011 for Mac, Microsoft Word 2013, and Apple's Pages programs. You will also learn how to build an APA formatted paper from the ground up by understanding: • How to outline information you've already gathered. • How to write an essay or research paper from an outline. • How to write a solid introduction. • How to use the required headings in a research paper including Abstracts, Method, Subjects and Participants, Materials or Apparatus, Results, and Discussion sections. • Building Citations within your paper and on your Reference page. Also included in this guide: • APA examples and high resolution screen shots to help students correctly format documents within 15 minutes. • Over 150 completed Reference examples • Over 60 completed In-Text Citation examples • How to use Headings effectively in your writing • Specific examples that cover how to cite new media such as blog posts, emails, websites, online lectures, computer programs, social media and much more. • A new section on using and citing DOI's (Digital Object Identifiers) for new media. • A Short Sample paper in APA format. • For more information on APA Made Easy and downloadable APA templates visit: YouVersusTheWorld.com.

Worlds in Miniature Jack Davy,Charlotte Dixon,2020-10-09 Miniaturisation is the creation of small objects that resemble larger ones, usually, but not always, for purposes different to those of the larger original object. Worlds in Miniature brings together researchers working across various regions, time periods and disciplines to explore the subject of miniaturisation as a material culture technique. It offers original contribution to the field of miniaturisation through its broad geographical scope, interdisciplinary approach, and deep understanding of miniatures and their diverse contexts. Beginning with an introduction by the editors, which offers one possible guide to studying and comparing miniatures, the following chapters include studies of miniature Neolithic stone circles on Exmoor, Ancient Egyptian miniature assemblages, miniaturisation under colonialism as practiced by the Makah People of Washington State, miniature surf boats from India, miniaturised contemporary tourist art of the Warao people of Venezuela, and dioramas on display in the Science Museum. Interspersing the chapters are interviews with miniature-makers, including two miniature boat-builders at the National Maritime Museum Cornwall and a freelance architectural model-maker. Professor Susanne Küchler concludes the volume with a theoretical study summarising the current state of miniaturisation as a research discipline. The interdisciplinary nature of the volume makes it suitable reading for anthropologists, archaeologists, historians and artists, and for researchers in related fields across the social sciences.
