**The Influence of the Stars** Rosa Baughan,2021-11-26 This book is an extensive study of astrology, containing the results of many years of research. Astrology is an ancient subject. Because of long-repressed realism, people have developed a new interest in these old-world beliefs, and this book is written to satisfy this interest.

*The Reading of the Stars for Those Who Love Them* A. M. Wrey,2006-09-01 This charming introduction to astrology, first published in 1913 and difficult to find in print again until now, initiates the novice into the mysteries of the zodiac through a series of questions (with answers, of course!), such as: . Why should Astrology be known as the Law which governs the Solar system, and consequently our individual lives? . Is it not supposed that the Pyramids were built especially for Astrological purposes? . Which [planet] is said to represent Evil in the greatest degree? . Does not the Moon possess immense influence over people, as well as over the tides as shewn in the study of Astronomy? . Is it not true that Planets have to go through the same kind of Pilgrimage as Humans? . and many more. Discover the power of reading the stars... or get a new perspective on this ancient art.

*The Fixed Stars and Constellations in Astrology* Vivian Robson,2005-03 Ancient astrologers declared stars fixed to distinguish them from wandering stars, which they called planets. This book is the distillation of two thousand years of astrological research. It is a comprehensive survey of fixed stars in natal & mundane astrology, the stars & constellations of medieval magic, and fixed stars in astrometeorology. Robson gives their traditional meanings & their effects when combined with planets & angles. Convenient tables & a comprehensive index make this volume easy to use. Included are some 110 named stars, as well as 48 ancient constellations & 60 modern ones. Arabic, Chinese & Hindu lunar mansions are also discussed. Since its first publication in 1923, this book has been the classic on fixed stars, the one to which everyone since has referred. About the author: Vivian Erwood Robson, 1890 - 1942, was a librarian by trade. Like many librarians he had a natural bent for research, and, in his particular case, astrology. He studied ancient astrologers closely, including Ptolemy & William Lilly. His books on fixed stars, electional astrology & relationships are 20th century classics. ar
